CASE FOR LACK OF EVIDENCEState Holds Means Was De-  
liberately Left Alone  
With Mrs. King(ASSOCIATED PRESS TELEGRAM)  
Concord, N. C., Sept. 25.—The  
defense in the case of Gaston B.  
Means, charged with the murder of  
Mrs. Maude A. King, consented this  
afternoon to having Means bound  
over to the grand jury.(ASSOCIATED PRESS TELEGRAM)  
Concord, N. C., Sept. 25.—At the  
opening of the second day's prelimi-  
nary hearing of Gaston Means, here  
in connection with the killing of  
Mrs. Maude A. King, the defense an-  
nounced that it would offer no evi-  
dence but would argue for a dis-  
missal. The state closed its case  
yesterday. It was announced that  
no habeas corpus had been applied  
for.Frank Osborne opened the argu-  
ment for the defense, informing  
Magistrate Pitts that the defense  
would show that the state had not  
established a case on which to bind  
Means over on a charge of murder.  
After his preliminary announce-  
ment Mr. Osborne said it was nec-  
essary in this case to show the  
character of the defendant. "I could  
call on your honor to testify to the  
good character of the defendant,"  
Mr. Osborne said. "You have known  
him all your life," he added.  
"I ask you therefore to take into  
consideration the character of the  
defendant in making your decision,"  
Mr. Osborne declared. The state,  
he declared, had not brought direct  
evidence to show that Means was  
connected with the death of Mrs.  
King.The state claims the defendant  
killed Mrs. King," said Mr. Osborne,  
and if such a crime had been com-  
mitted, it would be a capital offense.  
(Continued on Page 2, Col. 3.)NEW ANGLE TURNS  
UP IN MURDER OF  
FULTON CO. WOMAN(ASSOCIATED PRESS TELEGRAM)  
Toledo, Sept. 25.—Mrs. Leo Fen-  
ton, the wife of the boyhood chum  
of Frederick Lehman, Swanton farm-  
er, accused of the murder of his wife  
a week ago, made a statement last  
night to Special Prosecutor Ham  
Fulton county and a detective em-  
ployed by the state. It was taken by  
a stenographer.Mrs. Fenton related that within  
the last two weeks Lehman had told  
her he wanted her with him always  
and hoped soon to be in a position  
to make a home for her.  
The Lehman and Fentons lived  
on neighboring farms. They fre-  
quently went automobile riding and  
on fishing trips together.The state now has abandoned the  
theory that Lehman, if he murdered  
his wife, did so because he feared he  
would soon be drafted into the  
army.No admission of any indiscreet  
conduct is made in Mrs. Fenton's  
statement. Leo Fenton said that  
when the time comes his wife will  
tell the whole truth.

## MAYOR MITCHELL'S LEAD

IS CUT BY NEW REPORT

(ASSOCIATED PRESS TELEGRAM)  
New York, Sept. 25.—Just before  
the recent election began forty first  
ballots cast in the recent Repub-  
lican primary election to determine  
whether Mayor Mitchell or former  
State Senator William Bennett re-  
ceived the nomination for mayor.  
The board of elections made public  
a final computation of returns from  
all boroughs which reduced the  
mayor's lead to 325 votes. These  
figures, it was said, did not in-  
clude void, protested, blank or oth-  
erwise questionable ballots. Re-  
turns compiled the day after the  
election gave the mayor a lead of  
1,119 votes which revised figures  
from day to day have gradually di-  
minished.SUFFS ASK SUPREME  
COURT FOR INJUNCTION(ASSOCIATED PRESS TELEGRAM)  
Columbus, Sept. 25.—Ohio suffra-  
gists today carried their fight to  
knock out the proposed referendum  
on the Reynolds presidential suffrage  
law to the state supreme court, fil-  
ing in that court a petition asking  
that Secretary of State Fulton be en-  
joined from accepting the petition  
of the anti for the referendum.

## WILL PROTECT RUSSIA.

(ASSOCIATED PRESS TELEGRAM)  
Petrograd, Sept. 25.—Addressing  
the soldiers and workmen's dele-  
gates today General Verkhovsky, min-  
ister of war of Russia yesterday re-  
ceived formal assurances from  
France and Great Britain that they  
would not include a separate peace in  
the detriment of Russia.U. S. OFFICER GETS  
FRENCH WAR CROSS

Brig. Gen. George B. Duncan.

Brig. Gen. George B. Duncan (to-  
gether with Maj. Campbell King)  
was the first American officer to re-  
ceive the French war cross for his  
work as observation officer in the  
Verdun offensive. A piece of shrap-  
nel struck his steel helmet while he  
was at his post. Congressional ac-  
tion is necessary before he can ac-  
cept the decoration of the French  
government.PAPER MAKERS FAIL  
TO KEEP PLEDGE TO  
FEDERAL OFFICIALS(ASSOCIATED PRESS TELEGRAM)  
Washington, Sept. 25.—The fed-  
eral trade commission decided today it  
would turn over to newspaper pub-  
lishers for such use as they desired  
to make of it records and corre-  
spondence in the agreement of last  
month made with news-print man-  
ufacturers by which paper prices were  
to have been cut.Some of the manufacturers de-  
clined to carry out the agreement  
when the government refused to halt  
grand jury proceedings against them  
in New York charging violation of  
the anti-trust laws. Publishers who  
signed the agreement have made fre-  
quent inquiries of the commission as  
to what are their rights in the cir-  
cumstances.The commission, while giving no  
definite answer, will turn over the  
records and let the publishers them-  
selves judge what they best can do.HURRICANE SWEEPS  
ACROSS GULF; CROP  
DAMAGE IN JAMAICA(ASSOCIATED PRESS TELEGRAM)  
Washington, Sept. 25.—Jamaica  
suffered heavy property damage in  
hurricane which swept the island  
last Sunday and is now sweeping  
across the gulf of Mexico. Dispatches  
from the American consul at Port  
Antonio, received today, said the hur-  
ricane was the most terrific since  
that of 1913 and that the fruit crop  
of Port Antonio district was de-  
stroyed. No mention was made of  
any loss of life.The tropical disturbance, according  
to the weather bureau, was central  
this morning a short distance south  
of the western end of Cuba, moving  
northwesterly. The bureau said its  
intensity was impossible to determine  
and advised vessels in the gulf of  
Mexico to be extremely cautious.PACIFIC COAST CREWS  
WANT WAGE INCREASE(ASSOCIATED PRESS TELEGRAM)  
San Francisco, Sept. 25.—Cap-  
tain, mates and pilots of 200 Pa-  
cific coast ships, have presented de-  
mands for a general wage increase  
approximating \$15 per month, a 15  
per cent advance over the present  
scale. It became known today. The  
demands were made on behalf of  
15,000 men employed on ships out of  
San Francisco and Seattle, it was  
said. No conference between the  
men and employers have been held,  
but hope was expressed by both sides  
that the differences might be  
amicably settled.

## BAVARIA SENDS REPLY.

(ASSOCIATED PRESS TELEGRAM)  
Berlin, Sept. 24.—(Monday)—The  
Bavarian government has made an  
individual reply to the peace propo-  
sals of Pope Benedict, according to  
a special dispatch from Munich to  
the Zeltung Ammattag. It is taken  
for granted that the German imper-  
ial government is fully conversant  
with the contents of the reply made  
by King Ludwig.CONFERENCE REPORT ADOPTED.  
Washington, Sept. 25.—The con-  
ference report on the trading with  
the enemy bill, adopted by the senate  
yesterday, was adopted today by the  
house without a roll call. It now  
goes to the president for signature.ARGENTINE VOTES

Buenos Aires, Sept. 25.—The  
chamber of deputies today voted in  
favor of a rupture with Germany.  
The vote was 53 to 18.(ASSOCIATED PRESS TELEGRAM)  
Buenos Aires, Sept. 25.—The con-  
servatives, who control the chamber  
of deputies, have agreed to vote to-  
night on a rupture with Germany.  
From all indications they will have  
a majority of thirty votes, virtually  
forcing the government to cease rela-  
tions with Germany.The government desires to post-  
pone formulation of its policy until  
it receives from Ambassador Naon at  
Washington translations of the 415  
telegrams received or sent by the  
Swedish legation here. These mes-  
sages were telegraphed to Dr. Naon  
with instructions to send transla-  
tions.The government is considering im-  
position of a rigid censorship of all  
messages in the republic to prevent  
misuse of the cables such as that  
practiced by the Count von Luxburg,  
the dismissed German minister.Strikers have cut the telegraph  
lines to Valparaiso, Chile, paralyzing  
direct cable service to the United  
States.The authorities have been advised  
officially that strike agitators in the  
city of Santa Fe have been confer-  
ring with the German consul there  
and that the serious strike among  
all classes of workmen during the  
last month in that city was fomented  
and supported by Germans.PANAMA ENGINEER  
IS COMMENDED FOR  
DEFENSE OF VERDUN(ASSOCIATED PRESS TELEGRAM)  
Paris, Sept. 25.—Major Philippe  
Varilla, at once general manager  
of the old French Panama  
Canal company, who is serving as  
major of engineers for the duration  
of the war, has been commended by  
General Petain in general orders for  
his splendid services in the reorga-  
nization of French positions during  
the recent Verdun fighting.Major Banua Varilla was wounded  
at Verdun on September 3 from  
shell fragments, his right leg being  
so seriously injured that amputation  
was necessary. He recently received  
the decoration of the Legion of  
Honor with the rank of commander.CHEMISTS SEARCH  
WOMAN'S ORGANS  
TO FIX CAUSE DEATH(ASSOCIATED PRESS TELEGRAM)  
New York, Sept. 25.—Sorecey was  
maintained today regarding the  
chemical analysis in progress here of  
the vital organs from the body of  
Mrs. Robert Worth Bingham, pri-  
vately exhumed at Wilmington, N. C.,  
last week by direction of members of  
her family, as a result of rumors re-  
garding her death.The organs are at Bellevue hos-  
pital being subjected to hospital  
tests in biological laboratories. The  
examination, it is said, is for the  
purpose of discovering if there was  
any condition present and will take  
several days. The work is being  
done, it was said, for the Kenan fam-  
ily of Wilmington, relatives of Mrs.  
Bingham, formerly Mrs. Henry M.  
Flagler, widow of the Standard Oil  
financier, who left her an estate that  
has been valued at \$70,000,000.The organs were brought here sev-  
eral days ago. Some of the work, it  
was said, is being done at Columbia  
University.

## BLAST IN SHELL FACTORY

KILLS ONE; EIGHT INJURED

(ASSOCIATED PRESS TELEGRAM)  
Lowell, Mass., Sept. 23.—One man  
was killed and eight others injured  
today by an explosion at the plant of  
the Newton Manufacturing company  
which is engaged in making shells  
for the government. Officers of the  
company said the explosion was ac-  
cidental and probably was caused by a  
flare up while workmen were filling  
shells.

## SLAVS HAVE LIBERTY LOAN.

(ASSOCIATED PRESS TELEGRAM)  
Petrograd, Sept. 25.—The treasury  
announces that subscriptions to  
Liberty loan have reached 3,800,  
000,000 rubles.CAMP MEADE COMMANDER SLATED TO  
HEAD ARMY GENERAL STAFF JAN. 1

Drafted Pennsylvania men arriving at Camp Meade and (below) General Kuhn shaking hands with the first arrival.

Camp Meade, situated at Admiral, Md., enjoys the distinction of having  
as its commander Maj. Gen. Joseph E. Kuhn, one of the oldest men in the  
United States army. General Kuhn is slated to succeed Gen. Tasker H.  
Bliss as army chief of staff when the latter's term expires on December 31.  
He is training drafted men from Pennsylvania and Maryland.GAS EXPLOSION ON  
TANKER KILLS TWO;  
VESSEL IS DAMAGED(ASSOCIATED PRESS TELEGRAM)  
Richmond, Cal., Sept. 25.—Two  
men were killed here early today in  
an explosion which tore out the for-  
ward works and superstructure of the  
Standard Oil tanker, J. A. Moffett,  
as she lay at her pier here.The explosion, according to J. F.  
Brooks, superintendent at Richmond  
for the Standard Oil company, was  
probably caused by an ignition of gas  
while the men were cleaning the  
hold. More than 60,000 gallons of  
oil which had been pumped aboard,  
escaped destruction.The Moffett, of 4012 net tons, ar-  
rived yesterday from Vancouver in  
ballast and repairs were being ef-  
fected before she filled her tanks.The explosion awoke residents of  
San Francisco, seven miles away.  
Officials of the Standard Oil com-  
pany of California, said the pier had  
been closely guarded before and  
since the Moffett's arrival."I am assured that the explosion  
was an accident," said Superintendent  
Brooks. "It may have occurred  
when some one lit the match."The forward holds of the Moffett  
continued to emit fire and smoke  
hours after the explosion and the  
deck was buckled. The engines were  
reported to have been destroyed.The town of Richmond was shaken  
by the explosion as by an earthquake.  
The bodies of the two victims were  
recovered.

## RUSS MINISTER DENIES

RUMORS OF PEACE PLAN

(ASSOCIATED PRESS TELEGRAM)  
Petrograd, Sept. 24.—(Delayed.)  
—Minister of Foreign Affairs Ter-  
chenko today issued the following  
statement:  
"Rumors published recently by  
the newspapers in various countries  
regarding peace negotiations said to  
have been initiated by certain pow-  
ers are entirely false. Equally de-  
void of foundation are reports at-  
tributing any particular importance  
to the conference in Berne, which  
has been convoked by the so-called  
"alliance for the realization of  
durable peace" with which neither  
the Russian government nor her  
allies had anything to do."OPPOSE MOVE TO  
GIVE UP BELGIUM(ASSOCIATED PRESS TELEGRAM)  
London, Sept. 25.—An Exchange  
Telegraph dispatch from Copen-  
hagen says the main committee of  
the National Liberty party of Ger-  
many has adopted a resolution op-  
posing the reichstag's peace resolu-  
tion, disarmament, establishment of  
elementary government in Germany  
and the restoration of Belgium and  
advocating annexation of conquered  
territory. The socialist newspaper  
Vorwarts of Berlin characterizes  
the resolution as a challenge to the  
reichstag majority.

## RUSS CONGRESS POSTPONED.

Petrograd, Sept. 25.—The demo-  
cratic congress summoned by the  
Soldiers' and Workmen's Central  
Council, which was to have been  
convened today has been postponed  
until Thursday.OHIO YOUTH ENTERS  
FLYING CORPS OF  
THE CANADIAN ARMY(ASSOCIATED PRESS TELEGRAM)  
Columbus, Sept. 25.—Walter E.  
Wanamaker, aged 23, son of Judge  
R. M. Wanamaker of the Ohio su-  
preme court admitted to the bar after  
graduation from the Ohio State Uni-  
versity law school last June, has  
passed the examination necessary to  
qualify as a member of the royal  
flying corps at Camp Rathburn, near  
Toronto, Canada, according to ad-  
vice reaching here today. There  
were 135 in the class and sixty failed  
their examinations, evidencing the  
severity of the test.MISTREATMENT OF  
BRITISH PRISONERS  
TOLD IN NEW REPORT(ASSOCIATED PRESS TELEGRAM)  
London, Sept. 25.—Details con-  
cerning the treatment of the Ger-  
mans of British prisoners in German  
East Africa are contained in a White  
paper just issued. The paper con-  
tains a mass of testimony recited by  
prisoners and others including a  
number of women, to the effect that  
the Germans deliberately adopted a  
policy to lower the prestige of the  
British in the eyes of the natives,  
forcing them to do all manner of de-  
grading work and subjecting them to  
terrible hardships without proper  
food, clothing and shelter. Bed linen  
was offered to the prisoners, but they  
were forced to lodge in native huts  
which were damp and all became ill.  
The commandant, according to the  
testimony, declared that the prison-  
ers had no rights and that anything  
was good enough for the British.

## FINLAND DIET MAKES

NEW EFFORT TO MEET

(ASSOCIATED PRESS TELEGRAM)  
Petrograd, Sept. 25.—Renewal  
of political excitement in Helsin-  
fors, Finland, is reported in the  
press. The diet, which was dissolved  
and prevented forcibly from assem-  
bling recently, will make another  
attempt on Friday to resume sit-  
tings.Lettish workmen who have es-  
caped from occupied Russian terri-  
tory report that six members of a  
local council of soldiers and work-  
men's delegates have been shot for  
refusing to assist in the construc-  
tion of military works.

## POLICE GUARD PLACED

ABOUT SHIP YARDS

(ASSOCIATED PRESS TELEGRAM)  
Portland, Ore., Sept. 25.—Police  
were on duty today at the Portland  
Steel Ship-building plants, where ap-  
proximately 4000 workmen went on  
strike yesterday to enforce demands  
for increased wages and the closed  
shop. City officials announced that  
picketing at the plants would not be  
tolerated.G. Y. Harry, federal mediator, said  
he was still without official advice  
from Washington regarding federal  
action to adjust the difference be-  
tween the workmen and their em-  
ployers.15 KILLED AND 70

Reported From District  
of the Raid(ASSOCIATED PRESS TELEGRAM)  
London, Sept. 25.—Fifteen per-  
sons were killed and 70 injured in  
last night's air-raid over London.  
The Zeppelins which crossed the  
Yorkshire and Lincolnshire coasts  
did not penetrate inland, being driven  
off by gun-fire. Three women were  
injured.Only two airplanes at the most  
penetrated the defenses of London  
last night, it is reported officially.Reports from a Kentish town say  
that about eight bombs were dropped  
in last night's raid. According to  
a telegram from an Essex coast-town  
the first intimation of the raid came  
about 7:30 o'clock when anti-air-  
craft guns opened fire and the dron-  
ing of the triplanes' motors could be  
heard. The bombing over the town  
continued for about 24 hours at in-  
tervals, but so far as could be learned  
only three bombs were dropped,  
and apparently there was no great  
property damage.Reports from Yorkshire indicate  
that the Zeppelins, which appeared  
early this morning off the Lincoln-  
shire and Yorkshire coasts, dropped  
bombs and aerial torpedoes. The  
amount of damage has not been as-  
certained. The signal that all was  
clear was given at about 5 o'clock  
this morning.The following official report was  
given out by Lord French, command-  
er of the home defenses:  
"Airplane raid.—The latest re-  
ports concerning last night's plane  
raid show that the group of raiders  
which approached London was driven  
off by the fire of anti-aircraft guns.

FLIES FROM TURIN  
TO LONDON, 700 MI.(ASSOCIATED PRESS TELEGRAM)  
London, Sept. 24.—(Delayed.)—  
Captain Lauriat, one of the most  
daring Italian aviators, who has  
twice been decorated with military  
medals for valor, accompanied by  
an observer, made the first Italy-to-  
England flight today, repeating the  
feat in 1910 of the late George  
Chavez in crossing the Alps. Captain  
Lauriat covered 500 English miles  
in 722 minutes. His machine, which  
is a new type, started from Turin  
this morning. Captain Lauriat flew  
at a height of 10,500 feet. He en-  
countered high wind, fog banks,  
rain storms and clouds on the route  
which lay over Modans and Culois in  
southeastern France, thence over  
the French battle lines to northern  
France to Cape Gris-Nez and thence  
across the English channel. He  
brought mail to the Italian ambas-  
sador.On May 30 last, a British biplane  
with five persons on board arrived  
in Rome direct from London, having  
stopped only at Paris, Turin and  
Pisa on the way.U. S. SOLDIER SENTENCED  
FOR ATTACK ON JAPANESE(ASSOCIATED PRESS TELEGRAM)  
Nagasaki, Japan, Sept. 5.—(By  
Mail)—Manuel Neumair, a bandman,  
attached to the Thirteenth United  
States Infantry, has been sentenced  
to three years imprisonment and  
fined 2000 yen after conviction on  
the charge of inflicting fatal injuries  
on a Japanese tradesman.The complaint admitted that the  
crime was not intentional and that  
it occurred during intoxication. In  
escaping from the police Neumair is  
said to have knocked over a toilet  
manipulator. It was alleged that  
the Japanese was kicked and that  
he received internal injuries from  
which he died five hours later.The public prosecutor recommend-  
ed penal servitude for 10 years. The  
fine was imposed in connection with  
a civil action instituted by the fam-  
ily of the victim.

## MASSACHUSETTS PRIMARIES.

(ASSOCIATED PRESS TELEGRAM)  
Boston, Sept. 25.—Republican  
voters went to the polls in the state  
primaries today to decide whether  
Governor Samuel W. McCall should  
be renominated for a third term. His  
opponent was Grafton D. Cushing of  
Boston. Frederick W. Mansfield was  
the only candidate for the democratic  
nomination for governor.

## SIAM CALLS FOR VOLUNTEERS.

(ASSOCIATED PRESS TELEGRAM)  
London, Sept. 25.—The Siamese  
government, according to a dispatch  
from Bangkok to Reuters has called  
for volunteers who may be sent to  
the western front. The volunteers  
the dispatch says, will be commanded  
by officers trained in Belgium.LIQUID FIRE USED

New York, Sept. 25.—On the  
French front in northern France the  
Germans are keeping up their activi-  
ties north of Verdun. Their guns  
are still bombarding General Pe-  
tain's Chaume wood positions where  
the German infantry attacked yester-  
day but failed to drive the French  
from any portion of their line. A  
new attack was delivered last night  
in the Beaumont region to the  
southeast of Chaume wood and in  
this liquid fire was employed by the  
Crown Prince's troops. Here again  
they failed to gain ground and suf-  
fered heavy losses from the French  
fire.The British front has quieted  
down considerably from the state of  
marked activity prevailing for a  
week or more. Nevertheless there  
is a great deal of artillery work in  
progress, notably in Flanders, and  
London mentions especially the en-  
ergy being displayed by the Ger-  
man guns north and east of Ypres.Further south in the Lens region  
a surprise attack made on a British  
post northeast of the city of Lens  
was repulsed, while on the Somme  
front the British raided a trench  
east of Epeky and brought back  
prisoners.CONFERENCE MAY  
SETTLE WAGE MATTER  
FOR OHIO MINERS(ASSOCIATED PRESS TELEGRAM)  
Washington, Sept. 25.—An inter-  
state conference of representatives  
of coal operators and miners opened  
here today for the purpose of set-  
tling the wage question in the cen-  
tral competitive district of Illinois,  
Indiana, Ohio and Western Penn-  
sylvania. The meeting was called  
by John P. White, president of the  
United Mine Workers of America,  
following an informal conference of  
operators and miners in Indianap-  
olis, Sept. 6.It is understood that the workers  
will ask that the daily wage scale be  
increased from \$3.60 to \$5.50 and  
that an advance of ten cents per ton  
in the mining rate be granted.SUFFS ARE ELATED;  
WILL GET SPECIAL  
HOUSE COMMITTEE(ASSOCIATED PRESS TELEGRAM)  
Washington, Sept. 25.—There is  
great elation in suffrage ranks to-  
day because the long fight for the  
creation of a special house commit-  
tee on woman suffrage has been won.  
The house last yesterday voted 151  
to 107 to create such a committee.  
Interest today centers in the se-  
lection of a chairman of the new  
committee. The choice is believed  
to lie between representative Baker  
of California and Representative  
Taylor of Colorado, both of whom  
have been ardent advocates of wo-  
man suffrage.MOTHER KILLS THREE  
CHILDREN AND HERSELF(ASSOCIATED PRESS TELEGRAM)  
Toledo, O., Sept. 25.—Four corpses  
lay in a row in St. Stephen's Cath-  
olic church here today. They con-  
tained the bodies of Mrs. John  
Mikola, 28, of Detroit, who commit-  
ted suicide there Saturday after  
slaying her three children—Nina, 3;  
Olga, 3; and Volana, 18-months-old.  
The bodies of two children were  
found hanging from clothes hooks  
and the third from a chandelier.  
Mikola was a factory worker here  
before the family moved to Detroit  
two years ago.U. S. WHEAT FEEDS MANY  
THOUSAND SWISS PEOPLE(ASSOCIATED PRESS TELEGRAM)  
Berne, Switzerland, Monday, Sept.  
24.—President Schulthess said to-  
day in the national council that  
1,350,000 persons, more than one-  
third of the population of Switzer-  
land, were receiving bread and other  
food at reduced prices through the  
assistance of the United States.  
Swiss exports are now restricted  
almost exclusively to tobacco and

## F. T. BESTED IN GO WITH TANLAC

Master Medicine Antidote for Ma-  
larial Poison Which Lay Siege  
to Suffering Citizen's  
Anatomy.

Joseph H. Kinnell of 97 Lincoln  
avenue, Newark, soon will have  
passed his seventy-fifth birthday,  
but no one would ever suspect it.  
Bright of eye, step elastic, and the  
slow of health upon his cheeks, he  
appears a man not half so aged.  
"Tanlac!" was his quick response  
when questioned as to the source  
whence came his rejuvenation. His  
statement in full follows:  
"I had been dragging about all  
spring and summer sick, coughing  
and full of pain, feeling badly one  
place and then another—a little bet-  
ter today and not so well tomorrow  
and that's the way malaria serves  
a fellow. My stomach was eternally  
upset, hadn't any appetite, was so  
nervous I couldn't sleep, and got a  
little weaker and thinner each day. I  
had tried nearly everything but  
Tanlac.

"That medicine's a wonderful  
trick. A few doses put my stomach  
into shape, gave me strength and  
then I began to eat. About the  
fourth day my nerves got quiet and  
I began to sleep great. I waked  
mornings feeling about ten years  
younger. I've never had a pain in  
my place since, am gaining weight and  
am now over the effects of malaria  
entirely—cough and all."

## ACIDS IN STOMACH CAUSE INDIGESTION

Create Gas, Sourness and Pain  
How To Treat.

Medical authorities state that  
nearly nine-tenths of the cases of  
stomach trouble, indigestion, sour-  
ness, burning, gas, bloating, nausea,  
etc., are due to an excess of hydro-  
chloric acid in the stomach and not as  
some believe to a lack of digestive  
juices. The delicate stomach lining is  
irritated, digestion is delayed and  
food sours, causing the disagreeable  
symptoms which every stomach suf-  
ferer knows so well.  
Artificial digestants are not needed  
in such cases and many do real harm.  
Try laying aside all digestive aids  
and instead get from any druggist a  
few capsules of Bismarck Magnesia  
and take a teaspoonful after eating.  
This sweetens the stomach, prevents  
the formation of excess acid and  
there is no sourness, gas or pain.  
Bismarck Magnesia (in powder or  
tablet form—never liquid or milk)  
is harmless to the stomach, inexpen-  
sive to take and is the most efficient  
form of magnesia for stomach pur-  
poses. It is used by thousands of  
people who enjoy their meals with  
no more fear of indigestion.—Adver-  
tisement.

## SECRETARY OF NAVY CALLS ON BOYS FOR RADIO WORK.

The Secretary of the Navy, in an  
article in the October number of the

Navy is still in great need of radio  
operators for sea duty. He expresses  
the hope that many boys between the  
ages of 17 and 21 will volunteer for  
this important service. Boys under

"The principal requirement for

will be given after entering the Radio  
School at Harvard University."

## PASS DRAFTED MEN WITH CORN LIONS AND GLASS EYES.

COLUMBIA, Sept. 25.—Offi-  
cial notices reached division  
headquarters today that a man  
with a glass eye, another with  
a wooden leg and a third with  
nearly all of one hand missing  
had been sent here as selective  
draft men. Names of the three  
were not furnished. Receiving  
officers say they never noticed  
the one-legged man's condition  
when he was detained, the dis-  
covery being made when drilling  
was started.  
Blame for sending the three  
is laid to the local board, and  
officers today asked for more  
detailed information about  
them.

## 25 Years Ago

(From Advocate Sept. 25, 1892)  
Tickets for the lecture course this  
year will be on sale at Stewart's  
pharmacy and at the People's Na-  
tional bank.  
A small handbook, "A Word With  
You," has been issued by the Y. M.  
C. A. and every young man should  
have one.  
James Kirkendall, Jr., a former  
Licking county man, but now of Salt  
Lake City, Utah, is visiting relatives  
and friends in the city.  
C. Bourner and little grandson  
went to Black Hand today on a fish-  
ing trip.  
When you come to the fair this  
year visit the Prout & King store  
for hats, caps, shoes, trunks, and all  
kinds of horse blankets and robes.

## 15 YEARS AGO.

(From Advocate Sept. 25, 1902)  
Ralph B. Miller, son of Mr. and  
Mrs. E. B. Miller of this city, has  
been elected president of the sopho-  
more class at Denison University,  
Granville.  
Miss Zoe A. Fulton will leave for  
Ithica, N. Y., Thursday, where she  
will resume her vocal studies.  
Mrs. Edward Doe will give a tea  
party to a few friends next Tuesday  
at her home, West Church street.  
Wm. H. Maberry, a hardware mer-  
chant of Omaha, Neb., died Friday.  
His former home was in Newark  
where internment will be made.  
Charles Whitehead, Ben Jones and  
Jessie McCree went to Mt. Vernon  
today to attend the Knox county fair.

## The World War a Year Ago Today—Sept. 25.

German allies abandoned Viti-

Zeppelins killed thirty-six per-  
sons and injured twenty-seven in  
a new raid on England.  
Rebels seized the Greek is-  
land of Crete. Former Premier  
Venizelos joined the insurgent  
party.  
German aircraft bombarded  
Bucharest, capital of Roumania.

## Two Years Ago Today.

The deferred "spring drive" of  
the allies begun. French broke  
through German lines in the  
Champagne and the British at-  
tacked at Loos and Hill 70.

Russia, and forced to retreat.

## THIS GREAT DIVIDE

The woman in the prime of life  
need not dread to meet the loss of  
her youth when growing elderly.  
While some cherish dimness of ex-  
perience, cultivation, wisdom. The  
great physical changes met between  
the fortieth and fiftieth years are in-  
deed serious, and are not always well  
borne. In the strain of modern life,  
few women are in condition to meet  
these changes without some appre-  
hension of deranged health. But  
with the excellent help of Lydia E.  
Pinkham's Compound,  
that old, trustworthy woman's medi-  
cine, a woman may confidently ex-  
pect to enter later life as well and  
robust as ever.—Advertisement.

## Try This If You Have Dandruff

There is one sure way that never fails  
to remove dandruff completely and that  
is to dissolve it. This destroys it en-  
tirely. To do this just get some four  
ounces of plain, ordinary liquid arvon;  
apply it at night when retiring; use  
it to wash the scalp and rub it in  
gently with the finger tips.  
By morning, most if not all of your  
dandruff will be gone, and three or four  
more applications will completely dis-  
solve and entirely destroy every single  
sign and trace of it, no matter how much  
dandruff you may have.  
You will find, too, that all itching and  
stinging of the scalp will stop instantly,  
and your hair will be shiny, lustrous,  
glowy, silky and soft, and look and feel  
a hundred times better.  
You can get liquid arvon at any drug  
store. It is inexpensive, and four  
ounces is all you will need. This simple  
remedy has never been known to fail.

leaving Thursday.  
The members of the Good Will So-  
ciety to the number of 36, were en-  
tertained at the home of Mrs. J. W.  
Hunter, Thursday. The next meet-  
ing will be at the home of Mrs. Paul  
Grogg.  
Our Worthy Master Homer of  
Franklin Grange, would like for a  
good turnout of the members Thurs-  
day evening, as there is work to do  
that all should be interested in. Vis-  
iting grangers welcome.

## NATIONAL DAIRY SHOW INTERESTS YOUNG AND OLD

COLUMBIA, Sept. 25.—When the  
11th Annual National Dairy Show  
opens its doors to the public Thurs-  
day evening, October 15, at the Ohio  
State Fair Grounds, what is said to  
be the largest industrial or agricul-  
tural exposition held in America  
will be formally decided. For ten  
days and nights this greatest of all  
the National Dairy Shows will be  
open to the public.  
It is estimated that over 2,000  
head of registered breeds, Jersey,  
Holsteins, Guernseys, Ayrshires and  
Brown Swisses, will be in the cattle  
barn. Hundreds of the finest draft  
and light utility and society horses  
will be in the horse stables and seven  
principal buildings of the fair  
grounds will be filled to overflowing  
with whirling machinery in actual  
operation.  
The show, while of an educational  
nature, is such that every man, wom-  
an and child will be interested.  
There will be a nightly horse fair,  
held in the magnificent new \$250,-  
000 coliseum which the State of  
Ohio built especially for this show.  
There will be a domestic science  
school, with experts in charge, which  
will give interesting and instructive  
demonstrations. There will be stu-  
dent judging contests of all kinds.  
Actual demonstrations, showing  
pasteurizing of milk, the manufac-  
ture of butter, ice cream and cheese,  
under perfect sanitary conditions,  
will be a feature worth seeing.  
Nearly \$40,000 in prizes is offered  
cattle and horse exhibitors, which  
makes it possible for the finest ani-  
mals in the country being shown.  
There will be \$50,000 and \$25,000  
bulls and cows on exhibition.  
There will be a huge tractor dis-  
play in one of the buildings, and in  
another a most comprehensive dis-  
play of pleasure, motor cars will be  
shown. Motor trucks will be an-  
other.

The decorations in all of the build-  
ings will be the most beautiful ever  
seen at any exposition in the Central  
States. In one building, a veritable  
Japanese garden will be shown. In  
this garden, visitors will be able to  
rest and lunch. A real dairy farm  
with all of the articles used made in  
the building, will be a feature.  
The government is spending \$25,-  
000 to install an exhibit which will  
demonstrate the manufacture of by-  
products from milk. The leading  
Agricultural Colleges of the country  
will have large and comprehensive  
displays.  
Great mass meetings will be held  
during the entire ten days. Leading  
men of the land, including Herbert  
S. Hoover, have definitely promised  
to attend and address these meetings.  
The National Dairy Show bears the  
same relation to progress in agricul-  
ture as the greater expositions of the  
world, with the added value of meet-  
ing the war's needs.  
Eighteen per cent of the daily food  
of our people comes from the dairy  
cow. Because of this fact and also  
because the demands on the dairy  
industry to furnish more products of  
the cow to keep our soldiers, and  
those of our allies in the field, this  
Show takes on an added importance  
which cannot be too much impressed  
on all of us.

The National Dairy Show has done  
as much, if not more, for agriculture  
in this country than any other fac-  
tor. Every dollar of its net earnings  
is devoted to educational work  
among the farmers and to the fur-  
therance of every movement that  
stands for better conditions in the  
dairy world.  
The railroads are arranging excu-  
sions into Columbus during the ten  
days of the Show, and special rates  
will be given from many points in  
the Central States. Ample accom-  
modations for all visitors have been  
assured by the business men's com-  
mittee of Columbus who are co-oper-  
ating to make the Show a success.

## SPORTS TAUGHT SOLDIERS HOW TO APPLY THEIR POWER.

The modern soldier must have  
something more than the physical  
power of a Roman gladiator. He  
must have applied power. In a hand-  
to-hand struggle the tricks of the  
wrestler are as necessary as strength.  
On the march, or in digging a trench,  
the man who knows how to use mod-  
erate strength, beats the giant with  
undirected power. So it is in foot-  
ball, or any other sport. The strong  
man who does not know how to  
block an opponent, who cannot make  
a tackle, is useless. Our games  
have taught many a strong young-  
ster how to block and how to tackle,  
how to throw a basketball, and how to  
hit a baseball. So it has developed  
in American youth, and is develop-  
ing, the trained physical power so  
necessary in the soldier.—From the  
October American Boy.

Maggie—"Wigwag is the most  
credulous fellow I know." Baggins—  
"Yes, I really think Wigwag would  
believe a woman's age from the num-  
ber of candies on her birthday cake."

You never can tell. No matter  
how little exercise a man takes he is  
generally able to run through a for-  
cane.

You can always spot an untidy  
man by his clothes. In fact he ge-  
nerally spots himself.

## FATIGUE NEARLY OVERCOMES WOMAN

"Bringing up several children in  
the right way and caring of home  
brought me to the verge of nervous  
prostration," says a well known  
woman. "Fearing that I might be-  
come ill and have to give up house-  
work and the care of my little ones  
created a nightmare that was ever  
before me. I happened to mention  
my affliction to one of my neighbors  
and she advised me to procure some  
Phosphated Iron. A day or two later  
when I was feeling unusually miser-  
able I sent my daughter to the drug  
store for a box of the capsules and  
after ten days' treatment I felt like  
a different person altogether. I  
slept well at night, something I  
hadn't done in months before; my  
appetite is good and in fact what  
formerly seemed like mountains of  
work in my home is now more like  
play. As a sign of mine living over  
East has been taking Phosphated  
Iron with equally gratifying results."  
Phosphated Iron is put up in cap-  
sules only. In this locality it can be  
obtained at Evans' Drug Store and  
leading druggists everywhere.—Ad-

## WHY SOCIETY WOMEN WASH THEIR OWN HAIR

They do, not because it is a fad,  
but because they wish to obtain the  
best possible hair beauty and  
the sure they are not using anything  
harmful. They have found that in  
washing the hair it is never wise to  
use a makeshift but is always ad-  
visable to use a preparation made  
for shampooing only. Many of our  
friends say they get the best results  
from a simple home-made canthrox  
mixture. You can use this at a cost  
of about three cents a shampoo by  
getting some canthrox from your  
druggist, and dissolving a teaspoon-  
ful in a cup of hot water. This  
makes enough shampoo liquid to ap-  
ply to all the hair instead of just the  
top of the head, as with most prepa-  
rations. Dandruff, excess oil and  
dirt are dissolved and entirely disap-  
pear in the rinsing water. Your  
hair will be so fluffy that it will look  
much heavier than it is. Its lustre  
and softness will also delight you.—

Trench Fighting From the Inside.  
With thousands of American sold-  
iers at the battlefield in Europe and  
other thousands going over, it is no  
wonder that boys are curious about  
many things relating to modern war-  
fare—what the soldiers do out there,  
how an attack is conducted, how the  
grenade throwers work, and the en-  
gineers. Such questions as these are  
answered in an interesting way  
feature of the October American Boy  
"Trench Fighting," a vivid picture of  
actual conditions at the front by  
Lieut. G. T. Cummings, the young  
American who has won the Ribbon  
of the Distinguished Service Order.

## 25 Years Ago

(From Advocate Sept. 25, 1892).  
Tickets for the lecture course this  
year will be on sale at Stewart's  
pharmacy and at the People's Na-  
tional bank.

A small handbook, "A Word With  
You," has been issued by the Y. M.  
C. A. and every young man should  
have one.

James Kirkendall, jr., a former  
Licking county man, but now of Salt  
Lake City, Utah, is visiting relatives  
and friends in the city.

O. Bourner and little grandson  
went to Black Hand today on a fish-  
ing trip.

When you come to the fair this  
year visit the Proust & King store  
for hats, caps, shoes, trunks, and all  
kinds of horse blankets and robes.

## 15 YEARS AGO

(From Advocate Sept. 25, 1907).  
Mrs. E. S. Miller, son of Mr. and  
Mrs. E. S. Miller of this city, has  
been elected president of the sopho-  
more class at Denison University,  
Granville.

Miss Sue A. Fulton will leave for  
Ithaca, N. Y., Thursday, where she  
will resume her vocal studies.

Mrs. Edward Doe will give a tea  
party to a few friends next Tuesday,  
at her home, West Church street.

Wm. H. Maberry, a hardware mer-  
chant of Omaha, Neb., died Friday.  
His former home was in Newark  
where interment will be made.

Charles Whitehead, Ben Jones and  
Jesse McCree went to Mt. Vernon  
today to attend the Knox county fair.

## The World War a Year Ago Today—Sept. 25.

German allies abandoned Viti-  
can pass, in Transylvania.

Zeppelin killed thirty-six per-  
sons and injured twenty-seven in  
a new raid on England.

Rebels seized the Greek is-  
land of Crete. Former Premier  
Venizelos joined the insurgent  
party.

German aircraft bombarded  
Bucharest, capital of Roumania.

## Two Years Ago Today.

The deferred "spring drive" of  
the allies begun. French broke  
through German lines in the  
Champagne and the British at-  
tacked at Loos and Hill 70.

## Three Years Ago Today.

Germans under Von Hindenburg  
badly defeated near Grodno,  
Russia, and forced to retreat.

## THE GREAT DIVIDE

The woman in the prime of life  
need not dread to meet the loss of  
her youth when growing elderly.  
While some charms diminish, others  
should replace them—charms of ex-  
perience, cultivation, wisdom. The  
great physical changes met between  
the fortieth and fiftieth years are in-  
deed serious, and are not always well  
borne. In the strain of modern life,  
few women are in condition to meet  
these changes without some appre-  
hension of deranged health. But  
with the excellent help of Lydia E.  
Pinkham's Vegetable Compound,  
that old, trustworthy woman's medi-  
cine, a woman may confidently ex-  
pect to enter later life as well and  
robust as ever.—Advertisement.

## Try This If You Have Dandruff

There is one sure way that never fails  
to remove dandruff completely and that  
is to dissolve it. This destroys it en-  
tirely. To do this, just get a few  
ounces of plain, ordinary liquid arsenic;  
apply it at night when retiring; use  
enough to moisten the scalp and rub it  
in gently with the finger tips.

By morning, most if not all of your  
dandruff will be gone, and three or four  
more applications will completely de-  
stroy any dandruff that may remain.  
This entirely destroys every single  
sign and trace of it, no matter how much  
dandruff you may have.

You will find, too, that all itching and  
digging of the scalp will stop instantly,  
and your hair will be shiny, lustre-  
ous, silky and soft, and look and feel  
a hundred times better.

You can get liquid arsenic at any drug  
store. It is inexpensive, and four  
ounces is all you will need. This simple  
remedy has never been known to fail.

## FRANKLIN TOWNSHIP.

Owing to the lack of help work on  
the stonemason and other road work  
is at a standstill at present.

Henry Clark, Orville Kresser and  
Carl Vermillion are among the first  
to be drawn from Franklin township  
to enter the training camp at Chil-  
licothe. The first two mentioned  
leaving Thursday.

The members of the Good Will So-  
ciety to the number of 30, were in-  
terned at the home of Mrs. J. W.  
Hunter, Thursday. The next meet-  
ing will be at the home of Mrs. Paul  
Gregg.

Our Worthy Master Homer of  
Franklin Grange, would like for a  
good turnout of the members Thurs-  
day evening, as there is work to do  
that all should be interested in. Vis-  
iting grangers welcome.

## NATIONAL DAIRY SHOW INTERESTS YOUNG AND OLD

Columbus, Sept. 25.—When the  
11th Annual National Dairy Show  
opens its doors to the public Thurs-  
day evening, October 15, at the Ohio  
State Fair Grounds, what is said to  
be the largest industrial or agricul-  
tural exposition held in America  
will be formally decided. For ten  
days and nights the greatest of all  
the National Dairy Shows will be  
open to the public.

It is estimated that over 2,000  
head of registered breeds, Jersey,  
Holsteins, Guernseys, Ayrshires and  
Brown Swisses, will be in the cattle  
barns. Hundreds of the finest draft  
and light utility and society horses  
will be in the horse stables and seven  
principal buildings of the fair  
grounds will be filled to overflowing  
with whirling machinery in actual  
operation.

The show, while of an educational  
nature, is such that every man, wom-  
an and child will be interested.  
There will be a nightly horse fair,  
held in the magnificent new \$250,-  
000 coliseum which the State of  
Ohio built especially for this show.

There will be a domestic science  
school, with experts in charge, which  
will give interesting and instructive  
demonstrations. There will be stu-  
dent judging contests of all kinds.

Actual demonstrations, showing  
pasteurizing of milk, the manufac-  
ture of butter, ice cream and cheese,  
under perfect sanitary conditions,  
will be a feature worth seeing.

Nearly \$40,000 in prizes is offered  
cattle and horse exhibitors, which  
makes it possible for the finest ani-  
mals in the country being shown.  
There will be \$50,000 and \$25,000  
bulls and cows on exhibition.

There will be a huge tractor dis-  
play in one of the buildings, and in  
another a most comprehensive dis-  
play of pleasure, motor cars will be  
shown. Motor trucks will be an-  
other.

The decorations in all of the build-  
ings will be the most beautiful ever  
seen at any exposition in the Central  
States. In one building, a veritable  
Japanese garden will be shown. In  
this garden, visitors will be able to  
rest and lunch. A real dairy lunch,  
with all of the articles used made in  
the building, will be a feature.

The government is spending \$25,-  
000 to install an exhibit which will  
demonstrate the manufacture of hy-  
products from milk. The leading  
Agricultural Colleges of the country  
will have large and comprehensive  
displays.

Great mass meetings will be held  
during the entire ten days. Leading  
men of the land, including Herbert  
S. Hoover, have definitely promised  
to attend and address these meetings.

The National Dairy Show bears the  
same relation to progress in agricul-  
ture as the greater expositions of the  
world, with the added value of meet-  
ing the war's needs.

Eighteen per cent of the daily food  
of our people comes from the dairy  
cow. Because of this fact and also  
because the demands on the dairy  
industry to furnish more products of  
the cow to keep our soldiers and  
those of our allies in the field, this  
Show takes on an added importance  
which cannot be too much impressed  
on all of us.

The National Dairy Show has done  
as much, if not more, for agriculture  
in this country, than any other fac-  
tor. Every dollar of its net earnings  
is devoted to educational work  
among the farmers and to the fur-  
therance of every movement that  
stands for better conditions in the  
dairy world.

The railroads are arranging excu-  
sions into Columbus during the ten  
days of the Show, and special rates  
will be given from many points in  
the Central States. Ample accom-  
modations for all visitors have been  
committed by the business men's com-  
mittee of Columbus who are co-oper-  
ating to make the Show a success.

## SPORTS TAUGHT SOLDIERS HOW TO APPLY THEIR POWER.

The modern soldier must have  
something more than the physical  
power of a Roman gladiator. He  
must have applied power. In a hand-  
to-hand struggle the tricks of the  
weather are as necessary as strength.  
On the march, or in digging a trench,  
the man who knows how to use mod-  
erate strength, beats the giant with  
undirected power. So it is in foot-  
ball, or any other sport. The strong  
man who does not know how to  
block an opponent, who cannot make  
a tackle, is useless. Our games  
have taught many a strong young-  
ster how to block and how to tackle,  
how to throw a basket, and how to  
hit a baseball. So it has developed  
in American youth, and is develop-  
ing, the trained physical power so  
necessary in the soldier.—From the  
October American Boy.

Muggins—"Wigwag is the most  
credulous fellow I know." Baggins—  
"Yes, I really think Wigwag would  
believe a woman's age from the num-  
ber of candles on her birthday cake."

You never can tell. No matter  
how little exercise a man takes he is  
generally able to run through a for-  
tune.

You can always spot an untidy  
man by his clothes. In fact he gen-  
erally spots himself.

## FATIGUE NEARLY OVERCOMES WOMAN

"Bringing up several children in  
the right way and cares of home  
brought me to the verge of nervous  
prostration," says a well known  
woman. "Fearing that I might be-  
come ill and have to give up house-  
work and the care of my little ones,  
I created a nightmare that was over-  
come by me. I happened to mention  
my affliction to one of my neighbors  
and she advised me to procure some  
Phosphated Iron. A day or two later  
when I was feeling unusually miser-  
able I sent my daughter to the drug  
store for a box of the capsules and  
after ten days' treatment I felt like  
a different person altogether. I  
sleep well at night, something  
I hadn't done in months before; my  
appetite is good and in fact what  
formerly seemed like mountains of  
work in my home is now more like  
play. An aunt of mine living over  
East has been taking Phosphated  
Iron with equally gratifying results."

Phosphated Iron is put up in cap-  
sules only. In this locality it can be  
obtained at Evans' Drug Store and  
leading druggists everywhere.—Ad-  
vertisement.

## WHY SOCIETY WOMEN WASH THEIR OWN HAIR

They do, not because it is a fad,  
but because they wish to obtain the  
greatest possible hair beauty and be-  
cause they are not using anything  
harmful. They have found that in  
washing the hair it is never wise to  
use a makeshift but is always ad-  
visable to use a preparation made  
for shampooing only. Many of our  
friends say they get the best results  
from a simple home-made canthrox  
mixture. You can use this at a cost  
of about three cents a shampoo by  
getting some canthrox from your  
druggist, and dissolving a teaspoonful  
in a cup of hot water. This  
makes enough shampoo liquid to ap-  
ply to all the hair instead of just the  
top of the head, as with most prepa-  
rations. Dandruff, excess oil and  
dirt are dissolved and entirely disap-  
pear in the rinsing water. Your  
hair will be so fluffy that it will look  
much heavier than it is. Its lustre  
and softness will also delight you.—

Trench Fighting From the Inside.  
With thousands of American sold-  
iers at the battlefield in Europe and  
other thousands going over, it is no  
wonder that boys are curious about  
many things relating to modern war-  
fare—what the soldiers do out there,  
how an attack is conducted, how the  
grenade throwers work, and the en-  
gineers. Such questions as these are  
answered in an interesting way fea-  
ture of the October American Boy—  
"Trench Fighting," a vivid picture of  
actual conditions at the front by  
Lieut. G. T. Cummings, the young  
American who has won the Ribbon  
of the Distinguished Service Order.

LIBERTY BONDS.

In floating the new Liberty loan, much will of course be said about the patriotic duty of subscribing. This is all true and good stuff. Yet many of our shrewdest bankers are urging their clients to buy Liberty bonds, as the very best investment in the market.

It's certainly a phenomenal thing that the bonds of the United States government, the best security on earth, should sell to net four per cent. Never before has such a thing happened. There have been many times when two per cent bonds could be floated at par by the government. The United States Panama canal bonds sold a few months ago, before the war broke out, for a premium of two to four per cent. Any they pay only three per cent.

FEWER STUDENTS.

Preliminary returns from the colleges and technical schools are showing a decline in enrollment of 10 to 40 per cent. As the majority of these students are under military age, it does not seem possible that any such proportion could have been drafted. Probably a good many boys of 19 and 20, fearing lest they would be called out before the war is over, dislike to enter on courses that they may not be able to complete.

The United States faces a hard task under the war for technical and mental supremacy. The war has demonstrated that the old levels of attainment were not sufficient. Old theories of political economy, old systems of mechanical production, have had to go into the rag bag. The world's industries are going to be re-open on a basis of greater production. Many wastes have been eliminated and the wits of men have been sharpened by intense competition.

The United States can not go along in the old wasteful way. It needs mechanical experts of the highest order. It needs broadly trained men who have studied deeply into human history, and who can lead our people in ways of progress and in development of better civic institutions.

Therefore the boy who abandons his plan for higher education is not doing well. It is quite possible that there will not be another drawing. Or even if there is, the second division of men called may get no farther than the training camps of this country and France. In that case they can simply come

GOVERNMENTAL IDEAS OF HONOR.

President Wilson on several occasions, notably in his war message of April 2 and in his reply to the peace note of the pope, has called attention to the fact that no peace can be maintained with the imperial German government; that no autocratic government such as it can be trusted to keep faith; that only free people can hold their purpose and their honor steady to a common need, and prefer the interest of mankind to any narrow interest of their own.

SOLDIER INSURANCE.

One of the uses to which it is proposed to devote part of the proceeds of Liberty loan bonds is to afford to our soldiers and sailors life and indemnity insurance and to provide for allowances to their dependent families while they are in the ranks. On this point Secretary McAdoo of the treasury, whose plan of insurance for our fighting men was endorsed by President Wilson and is now embodied in a law pending before congress, says:

"Every soldier and sailor who serves his country in this war will earn everything the proposed war insurance bill provides; to be a beneficiary of the proposed law will be a badge of honor.  
"When we draft a wage-earner, we call not only him but the entire family to the flag; the sacrifice entailed is not divisible. The wife and children, the mother, the father, are all involved in the sacrifice—they directly bear the burden of defense. They suffer just as much as the soldier, but in a different way, and the nation must generously discharge as a proud privilege the duty of maintaining them until the soldiers and sailors return from the war and resume the responsibility.

CONGESTED RAILROADS.

A railroad man says that never in his experience has he seen conditions on the railroads so tied up as they are at this present time. Freight trains are slow coming through that many manufacturers send all their smaller deliveries by express.

Freight and express business calls for strong and husky men, so it is performed largely by young men. It takes a fellow with some elasticity of muscle to handle big loads. Now comes these vigorous young men, depleting the freight and express terminals. Meanwhile a big share of the young men from offices, factories, and stores, who live under conditions not conducive to physical strength, are escaping service, since the exemption boards won't pass them on account of physical disability. This leaves the railroads terribly handicapped in trying to handle the enormous strain of war business, with every factory jumping to fill orders.

Of course the general shortage of railroad equipment is aggravating this situation. The people with money to invest have become sore on the railroad stocks, claiming that under the strict government control now existing there is not much chance to make money in buying their securities. The railroads find it difficult to get money, are not increasing their facilities as they ought to.

Meanwhile manufacturers who can't get raw material and merchants who can't get shipments, are pawing up the earth and uttering long imprecations about freight delays. It would help some if every man who has a shipment of goods will take away his stuff the day it comes in so that cars can be released and sent off where most needed.

AMERICAN ENDURANCE.

Many of our people are wondering what our navy boys are doing all this time while there is such intense activity at the army cantonments. A letter from one of them gives a hint of it. He says the crews of the destroyers who are hunting submarines are having a very strenuous time of it.

They are out four days at a time, during which period they get scarcely any rest or sleep and can barely stop for food. He says they return to port completely exhausted and then get four days rest. It is a hard game, and will grow harder as wintry weather approaches.

Many people have the idea that the Americans while quick and nervous lack the power of enduring long continued strains. Such experiences as these show that our boys can stick it out with the best of them, and have the physical and nervous stamina to stand as much as any human constitution can. They will show it when they get to the trenches.

**Lodge Note:**—The biggest degree team of history is now training at the army cantonment to go over and initiate Bill Hohenzollern into the Thirtieth degree of the Anianis Club.

The fact that a man has demanded exemption for military service, doesn't prevent him from marching down the street looking very proud in the Send Off processions for the soldiers.

About the time they put taxes on farmers for producing war food, it would seem appropriate to tax the publishers for promoting war sentiment.

After years of depression, the market for plug hats must get quite a boost from the officials who are entertaining all these foreign commissions.

The boys won't kick a bit on having a No White Bread day, as it will give them a good excuse for demanding cake.

GOVERNMENTAL IDEAS OF HONOR.

President Wilson on several occasions, notably in his war message of April 2 and in his reply to the peace note of the pope, has called attention to the fact that no peace can be maintained with the imperial German government; that no autocratic government such as it can be trusted to keep faith; that only free people can hold their purpose and their honor steady to a common need, and prefer the interest of mankind to any narrow interest of their own.

The president was only restating a difference between two systems of governmental policy, two different governmental ideas of national honor that has long existed. The quotations given below show the American idea of a nation's honor from the inception of this government down to the present day and the idea of national honor held by the German government since the days of Frederick the Great.

"The foundations of our national policy will be laid in the pure and immutable principles of private morality. There exists in the course of nature an indissoluble union of virtue and happiness, between duty and advantage, between honest policy and public felicity. The smiles of heaven can never be expected on a government that disregards the eternal rules of order and right, which heaven itself has ordained."—George Washington, President of the United States, April, 1789.

"We are at the beginning of an age in which it will be insisted that the same standards of conduct and of responsibility for wrong done shall be observed among nations and their governments that are observed among the individual citizens of civilized states."—Woodrow Wilson, President of the United States, April, 1917.

"We are now in a state of necessity and necessity knows no law. Our troops have occupied neutral Luxemburg and perhaps already have entered Belgium territory. This is a breach of international law. The wrong we hereby commit we will try to make good as soon as our military aims have been attained. He who is menaced as we are, and is fighting for his highest possession, can only consider how he is to back his way through."—The German Chancellor Addressing the Reichstag, August 4, 1914.

The German chancellor was simply following the keynote given by Frederick the Great speaking in 1740: "The question of right is an affair of ministers. Take what you can; you are never wrong, unless you are obliged to give back."

Contrast the American and the German standards of national honor. The honor and good faith of the American government from Washington to Wilson are back of the Liberty loan bonds. Well may they be called the safest investment on earth—the premier security of the world.

TIPS FOR LIARS.

"(Sid.) In American Magazine.) I have long considered issuing a warning to liars—so here goes.

We all are tempted to decorate the truth. Frequently the truth is no lily—so we like to paint it. But we have another human frailty which, particularly when it comes to our wanting to tell a lie, is exceedingly bothersome—and that to our poor memories. We don't realize how often we tell the same story twice, and we don't realize how hard it is to tell the same story twice alike, especially if it isn't true. You recall the old Hoosier saying: "I reckon that a man in order to be a good liar must have a wonderful memory."

There is no doubt that it is easier to tell the truth and then repeat it, than it is to tell a lie and then try to repeat that. Test yourself on this. Suppose somebody asks you what size hat you wear. If you tell the truth about it you won't have any trouble answering the same question a month from now. But if you lie about it you may not recall the lie you told, and find yourself puzzled.

That is how this editorial happened to be written—only it wasn't the size of a man's hat that got him into trouble, but the size of his salary. A friend of mine had two interviews with a man whom he was considering for an important job. The interviews were three months apart. At the first interview the man was asked what salary he got. He mentioned a certain figure. At the second interview the same question was asked and a different figure was mentioned. It so happened that my friend's connections were such that he could get at the truth. He did get at it, and found that both figures were lies. That ended the negotiations for the new job.

UNITED STATES BONDS.

The United States government issues bonds in two forms: (1) Bearer bonds with interest coupons attached, commonly called coupon bonds; (2) bonds registered both as to principal and interest. Liberty loan bonds are issued in both bearer and coupon forms.

A bearer or coupon bond is payable to the bearer, the holder, the title passing by delivery. The treasury department requires that such bonds are presented for payment or exchange, the holder thereof being recognized. Such bonds may be bought and sold without formality and without endorsements of any kind. Attached to bearer bonds are sheets of coupons or certificates of

INTEREST.

One of these coupons becomes due about interest. Payment date and amount are detachable by the owner of the bond and cashed at his bank or presented to a treasury office for payment.

A registered bond is payable only to its owner or his order, and can be transferred only by being properly indorsed and assigned by the owner. The bond has inscribed on the face of it the name of the owner or payee, and such fact is recorded on the books of the treasury department. The change in ownership of a registered bond is effected by the original payee indorsing and assigning the bond, using the form on the back thereof in accordance with the regulations of the treasury department. Such assignment must be made before an officer designated by the treasury department, and such officer must certify thereto and attach his official seal. The officers assigned are indicated in a note printed on the back of the bond. Generally speaking, certain judicial and treasury officers and executive officers of federal reserve and national banks are authorized to witness assignments.

When the owner of a registered bond disposes of it and has properly assigned it, it should be forwarded at once to the secretary of the treasury for transfer on the books of the department. The bond so forwarded is canceled and a new bond in the name of the new owner is issued and sent to the new owner by registered mail.

The interest on registered bonds is paid by means of checks drawn by the secretary of the treasury on the treasury of the United States, such checks being issued on the day interest is due. They are sent by mail to the owners of the bonds.

AMERICA'S OBJECT.

"The object of this war is to deliver the free peoples of the world from the menace and the actual power of a vast military establishment controlled by an irresponsible government which, having secretly planned to dominate the world, proceeded to carry the plan out without regard either to the sacred obligations of treaty or the long-established principles of international action and honor; which chose its own time for the war; delivered its blow fiercely and suddenly; stopped at no barrier either of law or of mercy; swept a whole continent within the tide of blood—not the blood of soldiers only, but the blood of innocent women and children also; and of the helpless poor; and now stands balked but not defeated, the enemy of four-fifths of the world."—From President Wilson's Reply to the Pope.

Pointed Observations.

**The Passing Tri-Bit.**  
Now the lobster, joy of our salad days, solace indeed of our mature years, seems about to pass into reminiscence. The lobster supply, like the individual lobster too often, is short, and getting shorter. The local supply is almost gone. Spices of the sea are being hoarded for all time. The lobster is being sold at all times, only now and then does a 9-inch youngster report at the surface when the pot is drawn up. So far as Massachusetts goes the lobster is fished out.—Boston Transcript.

**"Diplomacy Started It."**  
H. G. Wells, a man of social vision and the novelist par excellence of the period, says that "diplomacy prevents peace." That is logical. Diplomacy, by a mixture of miscalculation, predatory designs and pretty general ineptitude, made the war. It has the wolf by the ears at the present time and is afraid to let go. To bid for peace without admitting defeat and thereby facing a terrible accounting with their own peoples for starting or not preventing the war whose program of conquest and rich indemnities has plainly gone by the board—that is the problem for the governments immediately responsible for the war.—Milwaukee Sentinel.

**More Apples Must Be Eaten.**  
It may seem strange that all the machinery of a formal "campaign" should be necessary to induce Americans to eat apples, but this is what is indicated by the recent action of the associated apple shippers of the country. This is because the apple market is so glutted that the shippers will have to induce every American to eat not an apple but two or three or half dozen apples. The British embargo on apples is responsible. England will not receive the fruit because it takes up elbow room that is needed for wheat. England was the largest foreign

**All Elements Fused.**  
The list of men given commissions at Fort Sheridan training camp shows the same variety of names as that of the men chosen under the selective draft. Every element of our population has contributed to this fine body of men, at no distant date to train and officer a large part of the new National Army. No more fitting symbol of national unity, no better evidence of the fact that this country, with all the diversity of its national origins, is one country in patriotism and purpose, could be found than is there furnished.—Chicago Herald.

**New York's Mayor.**  
Mayor Mitchell of New York, who has just been renominated on the Republican ticket, is a Democrat who was elected four years ago as a fusion candidate supported by anti-Tammany Democrats and Republicans. The anti-Tammany Democrats have again put him in the field, and now the Republicans have followed suit, though by a very narrow margin. Mr. Mitchell is generally regarded as the very best Mayor New York has ever had. Compare him with Bondsmith, and you can appreciate what an excellent official he has been. Imagination refuses to picture such a situation as the Democrats of Philadelphia indorsing Bondsmith because of his excellent and non-partisan administration. But that is what the Republicans of New York have just done with a capable and honorable Democratic Mayor.—Philadelphia Record.

## SOCIAL EVENTS

(Society Editor, Anti-Phone 26122.)

Mrs. George Ruby will be hostess to the members of the Silent Circle of The King's Daughters and Sons at her home in the Granville road this evening at 7:30 o'clock.

The year book for the Review club has been issued for the season of 1917-18. The book is identical with last year's issue and the following officers will serve: President, Mrs. E. E. Kennedy; first vice, president, Mrs. Charles E. Spencer; second vice, president, Mrs. Oscar Crane; recording secretary, Mrs. Samuel Sachs; corresponding secretary, Mrs. T. M. Edmonson; treasurer, Mrs. Clifford L. Sturgeon; auditor, Mrs. Oren J. Barnes.

An enjoyable surprise party was given on Miss Margaret Lucas Wednesday evening, the occasion being her fifth birthday anniversary. Music and refreshments were served. The following guests were present: Misses Alice Maurath, Bessie Beckett, Ethel Beckett, Margaret Danforth, Ruth Redman, Ruth McCalley, Lucy Horn, Eva Pfeiffer, Louise Bishop, Josephine Lucas and Sarah Jane Lucas.

A charming event which was in keeping with the beautiful September day, took place at the home of Mrs. Eliza D. Fairall, near Fairall Run, when Miss Nellie B. Fairall and Mr. Guy Harsha were united in marriage by Rev. S. D. Kilpatrick.

The home was beautifully decorated with autumn flowers and at high noon the strains of Wagner's "Bridal Chorus" played by Miss Dorothy Jones, drifted through the floral rooms, the bride and groom descended the stairs and took their place in the bay window which was a bank of flowers. Little Russell Fairall bore the ring in a white lily and Mr. and Mrs. Oscar Fairall were the attendants. After the ceremony a wedding dinner was served, the table being set with dishes which were prepared by the bride. Those present were: Mrs. Eliza Fairall, Mr. and Mrs. H. H. Howell of Truway, Mr. and Mrs. Frank Fairall, Mrs. Barrett of Reform, Mr. and Mrs. B. M. Harrison, Alexandria, Rev. S. D. Kilpatrick, Mr. and Mrs. Oscar Fairall and sons Russell and Ralph of near Brushy Fork; Miss F. Edna Wilson of Newark, Miss Dorothy Jones of Granville.

The officiating clergyman is a cousin of the bride and was her first teacher. Mrs. Harsha was a well known and highly esteemed teacher in Licking county. Miss Edna Wilson and Dorothy Jones and Mrs. Harsha were co-teachers at Jersey two years ago.

Mr. and Mrs. Harsha left that evening for the former's home near Marietta.

Mr. and Mrs. C. F. Kreager gave a party Tuesday night, Sept. 18th, in honor of their son Orville. The following guests were present: Mr. William Gordon and daughter Anna, Mr. and Mrs. Austin Orr and sons Homer, Floyd and Harold and daughter Edna, Mr. and Mrs. Ben Guttridge and son Kenneth and daughter Elsie, Mr. and Mrs. William Hoskins and daughters Hazel and Mabel and son Joseph, Mr. and Mrs. Crave Fulk, Mr. and Mrs. E. J. Guttridge and daughter Alma and son James, Mr. and Mrs. William Hazlett and daughter Lena, Mr. and Mrs. Wilbur Dushimer and daughters Ruth and Lena, Mr. and Mrs. Dan Kreager and daughters Vera and Frances and son Mearl, Mr. and Mrs. Don Cummings and daughters Hazel and Cleo, Mr. and Mrs. George Kreager and son John, Mr. and Mrs. Ed. Guttridge and daughters Ava, Sarah and Edna and son Floyd, Mr. and Mrs. Frank Kreager, daughter Stella and son Ernest, Mr. and Mrs. Gid Fulk and daughter Helen and son Murry, Mr. and Mrs. William Dispenet and sons Earl and Carl, Mr. and Mrs. Frank Dushimer and daughter Edna and sons Orville and Maryon, Mrs. Martha Guttridge, Miss Blanch Grubah, May and Pearl Kreager, Myrtle Orr, Mr. Herbert Hoskins, Arthur Kreager, Herman Loughman, Ora Lampton, Ray Orr. Music for the evening was furnished by Herman Loughman and Wilbur Dushimer. A delicious supper was served.

Announcement is made of the marriage of Miss Eunice Hill of Cincinnati and Mr. Robert Elson of Newark, the marriage taking place at Newport, Ky., Monday, September 24. Mr. Elson is the son of Mr. and Mrs. William J. Elson of 214 Woods avenue, and is a printer at the City Print shop.

The faculty of the Denison Conservatory of Music announces a song recital by Ralph W. Soule, in Recital hall, on Wednesday evening, September 26 at 7:30 o'clock.

On Thursday, September 27, a meeting of the Newark district of the Zanesville Presbytery will be held in the First Presbyterian church. The following program has been arranged:

Devotional—Mrs. Calvin Hazlett. Conference Hour—Mrs. Kellenberger.

Musical—Mrs. Chandler Tucker. Talk on Japan.

Afternoon Session: Reading, "How One Woman Helped."

Musical—Mrs. C. W. Miller and Miss Fulton.

Address—"The World Challenge to America" by Mrs. Hopkins, returned missionary from India.

Prayer—In charge of Miss Genevieve Forry. Benediction.

The morning session opens at 9 o'clock.

The Boosters Club of the local Masonic bodies is arranging for a series of dances for the coming winter. The first will be held Oct. 20, and will be a Halloween affair. The second will be a Thanksgiving dance and will be held Nov. 23. The third will be a New Year's dance and will be held Dec. 31. On Jan. 16 a masquerade will be given and on Feb. 22, a Washington birthday dance. Each one of the series will be along

## Our Boys and Girls

A table for the baby, just learning to walk, will be found useful. Just as soon as a child finds its feet and legs will support it, those feet and legs are put to use constantly. There is nothing a baby loves more than to make the circumference of a table, supporting the wobbly little legs by the aid of its hands, provided the table is low enough.

Children are often backward in learning to walk, through lack of confidence, though they will stand if you give them something to support themselves with, such as a chair. The low table will be found to be of great advantage as it does not move so readily from under the child, and the child does not have to stoop to reach it.

A toy placed on a table just the right height will so interest the child that it will unconsciously support itself and take the first steps and it is better than a patented walking machine. Care should be used not to let the baby stand too long.

## RED CROSS WORKER MOBILIZES WOMEN

Miss Florence Marshall.

Upon the shoulders of Miss Florence Marshall falls the great task of mobilizing the womanhood of the country under the Red Cross flag. She has been appointed to organize the women of America so that surgical dressings and other necessities in Red Cross work will be made in great quantities.

ful improvement, if not entirely correct the fault. Exercises may be adopted that will perfect the circulation and take away from or add to and part of the arm. Should the arm be thin the exercise should be mild, but if there is too much flesh, the exercises should be vigorous.

An ideal method of plumping the arms is to wrap them with oiled bandages, to be worn at night. Before applying the bandages the entire arm should be bathed with warm water for eight or ten minutes. In addition to cleansing the skin it opens the pores and better prepares the skin to absorb the oil.

The bandages should be stripes of linen about two inches wide, first soaked in olive oil and then applied. Begin at the wrist by winding the bandage around the arm, working upward until the whole arm is encased. The bandage should be put on firmly, but not so tight as to retard circulation. To prevent the clothing or the bed clothes from becoming soiled, silk may be used to cover the bandages.

The oil may be applied by massaging the arms, but the bandages are better. The arms should be bathed again in the morning and after being thoroughly dried a small amount of oil again rubbed into the skin by friction, after which the arms should be wiped with a soft cloth and then powdered.

Every Day Etiquette

"Would it be proper for me to give an engagement announcement party for a girl friend of mine?" asked Maude.

"It would be quite proper," answered her society friend, "write simple notes to the girls asking them to spend a certain evening with you. You might serve fruit salad with lettuce sandwiches, after dinner mint sauce, salted almonds and coffee. You can add ice cream and cake, if you wish. At each girl's place have a pink flower and at the table of the prospective bride have a bouquet of white flowers. At each place have two cards tied together with white ribbon, one the card of the bride-to-be and the other that of the groom-to-be. The cards may be heart-shaped, if you like."

Man is made of dust, so perhaps it's no wonder some fellows are always dry.

## WOMEN OF NEWARK!

Why aren't more women in Newark working in the Red Cross? The workrooms at 64 Hudson avenue are open from 9:00 a. m. to 4:00 p. m. every week day. A trained director is in charge. The Newark chapter wants workers to make hospital supplies. At present there are too few women giving active service. Plan for a half day a week at the Red Cross workrooms. At least 25 women should be at work every day at the Red Cross workrooms, 64 Hudson avenue.

## NEW WINTER COAT OF REAL COMFORT

A handsome new winter coat of smart style and comfortable design is this one of gold colored velvet with a deep beaver band. The coat seems to be one of the most serviceable of the newer models.

## Doctor Tells How To Strengthen Eyesight 50 per cent in One Week's Time in Many Instances

## A Free Prescription You Can Have Filled and Use at Home

Philadelphia, Pa. Do you wear glasses? Are you a victim of eye strain or other eye weaknesses? If so, you will be glad to know that according to Dr. Lewis there is real hope for you. Many whose eyes were failing say they have had their eyes restored through the principle of this wonderful free prescription. One man says, after trying it: "I was almost blind; could not see to read at all. Now I can read everything without any glasses and my eyes do not water any more. At night they would pain dreadfully; now they feel fine all the time. It was like a miracle to me." A lady who used it says: "The atmosphere seemed hazy with tears; I was unable to see my children or without glasses, but after using this prescription for fifteen days everything seems clear. I can even read fine print without glasses." It is believed that thousands who wear glasses can now discard them in a reasonable time and multitudes more will be able to strengthen their eyes so as to be spared the trouble

and expense of ever getting glasses. My troubles of many descriptions may be wonderfully benefited by following the simple rules. Here is the prescription: Go to any active drug store and get a bottle of Bon-Opto tablets. Drop one Bon-Opto tablet in a fourth of a glass of water and allow to dissolve. With this liquid bathe the eyes two to four times daily. You should notice your eyes clear up perceptibly right from the start and inflammation will quickly disappear. If your eyes are bothering you, even a little, take steps to save them now before it is too late. Many hopelessly blind might have been saved if they had cared for their eyes in time.

Note: Another prominent physician to whom the above article was submitted, said: "This is a very remarkable remedy. Its constituents are well known to eminent eye specialists and widely prescribed by them. The man who guarantees it to strengthen eyes 50 per cent in one week's time is many instances or refund the money. It can be obtained from any good drug store, and is one of the very few eye treatments I feel should be kept on hand for regular use in almost every family. It is sold in this city by Dr. J. Lewis and other druggists."

## Oriental Rugs

MR. S. MOORADIAN is here again with his fine collection of Oriental Rugs now on display at Hotel Sherwood. Mr. Mooradian needs no introduction as he is well known to the people of Newark. **Chicago Grain.**  
[Associated Press Telegram]  
Chicago, Sept. 25.—Assessments that the government food administration preferred to have the present maximum price on corn let alone had a bearish influence today on the corn market. Opening quotations, which ranged from 1 1/2 off to 3/4 up at 1.20 to 1.20 1/2 for December, and 1.17 1/2 @ 1.17 1/2 for May, were followed by a moderate downturn all around.

The close was unsettled at 1/4 to 1/2 net higher, at 1.21 to 1.21 1/2 for December, and 1.19 to 1.19 1/2 for May.

Oats developed relative firmness, despite the decline in corn. Consignments of oats from the country were meager.

Fresh advances in the value of hogs lifted provisions. Arrivals of hogs here were numerous than had been looked for.

**Cleveland Provisions.**

Cleveland, Sept. 25.—Potatoes, choice white, 4.27 @ 4.50 a barrel; 1.40 @ 1.50 a bushel in sacks; home grown 1.40 a bushel; Ontario 1.25 @ 1.30 a bushel. Sweet potatoes, 4.25 @ 4.75 a barrel; 2.25 a hamper.

**Wall Street.**  
[Associated Press Telegram]  
New York, Sept. 25.—Higher prices prevailed at the outset of today's trading. The war shares and related issues extending yesterday's gains by large fractions to a point.

Most advances were surrendered before the end of the first half hour on increased offerings.

Permanent selling of U. S. Steel which rallied to 1.12 only to recede to 1.11 1/2 served to undermine the general list during the active first hour.

Extensive stock issues were mainly represented by shippings and leathers. Substantial recoveries set in before noon, raising the upward movement.

The closing was irregular. Liberty bonds 99 1/2 to 100.02.

Extreme pressure of 2 to 4 points in numerous active issues were materially reduced at the close of the busy in the market. Sales approximated 900,000 shares.

### A Glimpse of the Russian Peasant.

It is a very methodical people even in their crimes. They do not get excited when anticipating an act against the law; they just make up their minds quietly and freely, as the following story will show:

A man arrived one day at a village where he commenced to lecture that all men were equal and that no government had the right to exercise any authority. Thinking to add more power to his views, he decided to begin by disproving the existence of God.

Taking a holy ikon, or sacred picture, he said: "There is no God. I will prove it immediately. I will spit upon this ikon and break it. If there is a God he will send fire from heaven and slay me; if there is not, nothing will happen," whereupon he took the picture and carried out his threat, saying when he had done so, "You see, God has not killed me."

His audience talked quietly among themselves for a few minutes, and then one of them got up and said, "No, God has not killed you, but we will!" And they did without the slightest compunction.—London Standard.

### The Circus Business.

The people who are in the circus game are there because of the primitive, wandering call of their blood, a call that dates back for generations. Anybody who's ever been with the big tops will tell you that he hates the business. It's dirty, it's rotten, it's nerve wracking, and if he can ever get to the place where he can have a little farm and a few chickens and a couple of hogs rooting around no mud colored circus big top is ever going to see him again. But, when the bluebird sings in the spring and the menagerie dens are bright with the paint that will remain gloriously shining until the first bad day in the mud, there he is, his eyes bulging, his whole being a-fret to "get with it" at any kind of a job from razorback to pony punk. And from the laboring class on up to the highest position that call of the blood is all the same.—Courtney Ryley Cooper in Everybody's Magazine.

### Treating Electric Shock.

How to treat a person who has received a severe electric shock is best described by quoting from the Scientific American the account of how one man did it to a workman who had touched a wire carrying a current of 2,300 volts and was apparently killed.

"A lineman immediately took hold of the ankles of the limp body, lifting it until the whole weight rested on the neck and letting it fall. He then took a pair of connectors and hammered the soles of the injured man's feet without removing his shoes. Another linemen opened the man's mouth, pulled forward the swallowed tongue (which occurred in electric shock) and was about to begin the Schaefer prone method of resuscitation when the man returned to life. He was removed to the hospital and is now well, though suffering very severely from his burns."

### Raisin Bread.

Incorporated with bread raisins constitute a valuable diet and help out the meat problem. It is stated that the raisin contains nearly 5 per cent protein and over 65 per cent carbohydrates and therefore is a very important energizing food. For invalids and children raisin bread is invaluable, says a food expert. The simplicity of the loaf makes it an ideal substitute for the hard, butter, sugar, egg, cream and citron laden cake. It is therefore an important addition to the domestic menu, and the woman who has her children's health at heart will see that at each baking two or three loaves are well filled with raisins, kneading them in just before the loaves are put into the pans.

### Order of the Thistle.

The Order of the Thistle, the Scots' equivalent of the Garter, is supposed to have been founded by King Achatus in 757 A. D. It was revived by James II. in 1687 and re-established by Queen Anne Dec. 31, 1703.

The insignia of the office is a silver star in the shape of St. Andrew's cross, with other rays issuing between the points of the cross. In the center on a gold background is a thistle encased in natural colors, surrounded by a green circle bearing the inscription, "Nemo me impune lacessit" ("No one injures me with impunity").—London Globe.

### Yellow and Suffrage.

Yellow was originally adopted by the woman suffragists, as their color because of the suffrage victory in Kansas in 1887. That victory was regarded as of immense importance, and yellow, in the eyes of the leaders of the movement, was inseparably associated with the Sunflower State.—Youth's Companion.

### So Have We.

"I have but one ambition."  
"What is that?"  
"To some day be as happy as the people in the newspaper and magazine advertisements look while shaving or washing their teeth or applying a corn cure."—Florida Times-Union.

### Suspicious Conduct.

"Officer, why did you arrest this motorist?"  
"Suspicious actions, your honor. He was within the speed limits, sounding his horn properly and trying to keep on the right side of the street."—Philadelphia Bulletin.

### Left Something.

Reporter—I am told that your trustful cashier has left the bank. Bank President—Has he? Thank heaven we have the building to start with again!—Boston Transcript.

### Life without laughing is a dreary task.

—Thackeray.

### What's in a name?

Most of the fireproof buildings are insured.

## NESSER BROTHERS

### ON PAN HANDLE TEAM FOR OVER 10 YEARS

Word received from Business Manager Joe Carr of the Columbus Pan Handles, states that his team is all tuned up and is only waiting for the call of the whistle to begin play here Sunday.

The war so far has been very lenient toward the Pan Handles' team, as they have lost only three members through draft or enlistments, leaving practically the same team as that which has struck the county for the past ten years.

In the Pan Handles line up Sunday, will be seen the famous Nesser brothers, seven in number, who have been playing together on the same team for the past ten years. One of the Pan Handles has met less than a dozen defeats.

Fitz team will be very greatly strengthened for this game as it has secured the services of two well known college stars of Mansfield and a very famous football player from the latter has played here upon several occasions.

On the line the Fitz team will have a veritable Gibraltar for the Pan Handles to go against. With Jackson, Smeltz, and the Davis line, will see one of the fastest and best drilled lines that has ever represented Newark on the gridiron.

The backfield positions have not been fully decided upon, but it is certain that the team will be a formidable one. The line of the team from quarterback, in placing Denison at quarter, a better selection could not be made for the game. Fitz has shown that he has the stuff that goes to make a real football team.

The students at Denison university, many of whom are from Columbus and vicinity, are making arrangements to attend the game, and will be in the book of the Pan Handles, Newark has secured a team that stands on a level with the best in the country.

## BIG PURSES SET UP FOR TODAY'S RACE PROGRAM

[Associated Press Telegram]  
Columbus, Sept. 25.—In addition to the unfinished 2008 Chamber of Commerce trot there will be three other stakes on today's card. The Circuit program here. The money distribution will be \$17,000. The Board of Trade 2:06 pace, the Buckeye 2:12 trot and the Erie 2:06 year old futurity trot are on the card.

The feature will be the Buckeye trot, purse \$5000. Daily Duane, Irma Jay, Peter Vaughn, Tim Woodman and other cracks will start, with Early Dreams the favorite.

Early is looked to have the three year old trot at her mercy. Miss Bertha Dillon, Kelly DeForest, Harvest and other stars.

In the 2:06 pace Colleen, Peter Pointer, Peter Look and the Savoy are the chief entries.

Tonight.  
Mary Miles Mintner, the premiere in-  
genue of the motion picture stage,  
whose success in heart interest drama  
has been a phenomenal sort, is  
starring in a new five-act dramatic  
fantasy, "Charity Castle," produced  
under American Mutual auspices and  
written by C. Doty Hobart, a magazine  
and scenario writer of national reputa-  
tion.  
Miss Mintner, recognized as one of  
the cleverest as well as one of the  
most beautiful children who have won  
name through the film, collaborated  
with Mr. Hobart in the preparation of  
the new play.

Wednesday and Thursday.  
When you see Madge Evans in  
"The Little Duchess" you forget that  
this accomplished little girl is acting.  
You feel that she is actually expe-  
riencing the sorrows and joys and  
thrills that were packed into a short  
space of her young life. That is one  
of the reasons why this new World  
Picture Brady-Made, which will be  
seen Wednesday and Thursday at the  
Alhambra theater, is so thoroughly en-  
joyable.

**LYRIC.**  
Singing, dancing and clean comedy  
prevailed at the Lyric theater Monday  
night and two packed audiences ap-  
plauded heartily at the singing num-  
bers and laughed freely at the whole-  
some comedy. Forrest Nelson, tenor  
singer, is one of the best singers heard  
in Newark in some time and Wentlock  
& Eller, society dancers, pleased im-  
mensely. The program changes night-  
ly.

**AUDITORIUM.**  
"The Irish 15th" Tonight.  
Al H. Wilson, the singing dialect  
comedian, new military song-  
writer, and actor, will present his  
play entitled "The Irish 15th," written  
by Theodore Burt-Sayre and produced  
by Sidney R. Ellis, which will be pre-  
sented at the Auditorium theater this  
evening by Mr. Wilson and a clever  
company. "The Irish 15th" is said to  
be a story brimming with originality,  
plot is laid in Ireland and France—  
in fact, second and fourth in Dub-  
lin and third in the city of Paris,  
and deals with the life and adventures  
of a patriotic fun loving Irishman  
named Dick Daley who, though a  
yet by his resourcefulness and wit he  
manages to so shape his career that he  
enjoys the reward of a successful  
soldier. And then the new songs which  
rendered in Mr. Wilson's inimitable style  
and the charm of his glorious voice  
rounds out the enjoyableness to per-  
fection. They are all charming and all  
melodious and are entitled "I Want  
You Then Macchree," "My Mother's  
Wedding Ring," "Ireland Is Your  
Home Sweet Home," "A Lily From  
Heaven" and "The Irish Will Be There."  
The scale of prices are low and none  
should miss this clever comedian to-  
night.

**"The Mysterious Miss Terry."**  
Billie Burke, daintiest and most fas-  
cinating of stage or screen comedies,  
is now appearing in the strangely ba-  
ffling photoplay "The Mysterious Miss  
Terry."  
As the heroine, Billie Burke com-  
pletely subjugates all the young men  
do the audience and in her handling  
house plays at being "fairly godmother"  
with all her own inimitable witchery.  
No one in the house knows much  
about her and many of her actions  
seem imbued with deepest mystery but  
withholding her little circle of ad-  
mirers remains staunch to the end  
Miss Terry, as she is called, secures  
employment in a small hardware store  
and there becomes a great favorite  
as at home.

As a joke on one of her fellow board-  
ers, she and the others plan a mock  
robbery of the store safe and when  
some real burglars appear on the  
scene, the mystery about the charming  
Miss Terry seems to darken strangely,  
although her friends steadfastly re-  
main loyal.  
True, who had fallen in love with  
the humble Miss Terry, "hardware  
clerk," was somewhat afraid of the  
wealthy and powerful Miss Wentworth,  
but his old "Miss Terry" came back  
just for long enough to make him real-  
ize that he was also quite in love with  
her double, Miss Wentworth. This fea-  
ture is at the Auditorium Wednesday  
and Thursday.

**"Should She Obey?"**  
The Auditorium announces a slight  
change in its program for Friday, as  
Billie Burke in "The Mysterious Miss  
Terry" was scheduled to play three  
days, but instead of playing Friday,  
the management is the first to offer  
in the state of Ohio, a feature that in  
other cities has crowded its theaters to  
the doors. The picture is the eight-  
part film "Should She Obey?" This  
feature ran for several months at the  
La Salle theater, Chicago, and the  
press reports especially what Rev.  
John P. Brushingham, the noted Meth-  
odist divine of that city, said: "He ad-  
vised every member of his church to  
witness a showing of this masterful

photoplay as it was the strongest ser-  
mon for simple and honest home life  
that the mind could conceive. "If every  
girl and every young man could see  
this picture there would be very few  
unhappy homes after marriage."  
"Divorce is the great American evil,  
it is the cancer of the very heart of the  
nation. Unless the rapid increase in  
divorce is halted it is only a matter of  
years until home life in America will  
be destroyed. What this means to the  
future of Christianity in our country,  
it is not difficult to imagine."  
This photoplay gives much attention  
to this phase of the problem and all  
should see it this spoke this home life  
known minister. It comes to the Au-  
ditorium for one day only, next Fri-  
day, running continuous, starting at  
1:30 p. m.

**O'Brien's Minstrels.**  
The Neil O'Brien Great American  
Minstrel will be seen at the Auditor-  
ium next Saturday. It is said that ev-  
ery bit of the program is entirely new  
and that there will be novelty enough  
to please the most exacting. There  
will be an entirely new stage setting  
and costumes for the first part, and  
the promise is given by Manager Oscar  
F. Hodge that the company is larger  
in point of numbers than ever before.  
There will, of course, be a large con-  
tingent of comedians to assist Mr. O'Brien  
in the fun making, among them being  
Eddie "Boss" Joe Coffman, Reggie  
Futch, Joe Willard, Major Nowak, Wil-  
son and McCarty, and Steve Werner.  
The list of vocalists includes James Ba-  
rard, Earl Hobbes, Leslie Berry, Eddie  
Connelly, Chas. R. Wright, Earl Earl  
Harold, J. Lester Haberkorn, George  
Miner, Waldo Roberts, Fred Mills and  
Barton Isbell.

**Auditorium Notes.**  
Sunday picture fans at the Auditor-  
ium are assured a great treat in the  
first Fox appearance of Dustin Far-  
num, brother to big Bill, who is seen  
in "The Mysterious Miss Terry."  
Geo. M. Cohan in "Seven Keys to  
Baldrate" is the big feature de luxe to  
be seen at the Auditorium next week.  
This will be Mr. Cohan's first appear-  
ance in pictures for Newark.

**CUT THIS OUT**

**OLD ENGLISH REMEDY FOR CATARH,  
CATARRH, DEAFNESS AND  
HEAD NOISES.**  
If you know of some one who is  
troubled with Catarrh, Deafness, head  
noises or ordinary catarrh cut out this  
formula and hand it to them and you  
may have been the means of saving  
some poor sufferer from total  
deafness. In England scientists for a  
long time past have recognized that cat-  
arrh is a constitutional disease and  
necessarily requires constitutional  
treatment.  
Sprays, inhalers and nose-douches  
are liable to irritate the delicate air  
passages and force the disease into the  
middle ear which frequently means to-  
tal deafness, or else the disease may be  
driven down the air passages towards  
the lungs which is equally as danger-  
ous. The following formula which is  
used extensively in the damp English  
climate is a constitutional treatment  
and should prove especially efficacious  
to sufferers here who live under more  
favorable climate conditions.  
Secure from your Druggist 1 ounce  
of Eucalypti (Double strength). Take  
this home and add to it 1/4 pint of hot  
water and 4 ounces of granulated su-  
gar, stir until dissolved. Take one  
tablespoonful four times a day. This  
will often bring quick relief from dis-  
tressing head noises. Clogged nostrils  
should open, breath become easy and  
hearing improve as the inflamma-  
tion in the eustachian tubes is reduced.  
Permit me to say in this way acts di-  
rectly upon the blood and mucous sur-  
faces of the system and has a slight tonic  
action that facilitates obtaining the de-  
sired results. The preparation is easy  
to make, costs little and is pleasant to  
take. Every person who has catarrh  
should give this treatment trial. T. J.  
Evans can supply you.—Adv.

**The PLAY THAT STARTLED all CHICAGO**  
It points the way to freedom from the customs of barbarians which  
have wrecked the lives of millions of women. It lays bare the glaring  
facts of polygamous marriages and divorce, which are destroying American  
home life; facts revealed by the Illinois Marriage and Divorce Com-  
mission, headed by Judge Marcus A. Kavanagh, and the Illinois Sen-  
ate Vice Committee.

**Don't Miss This True Story From  
Actual Life**  
Critics declare the story to be the American "Les Miserables." It is  
not a clean, innocent story from real life. It reveals the actual heart-  
rending miseries of the divorced women of America—women who with all the brutality of barbarism  
have killed the very souls of those whom they swore to love and pro-  
tect—the souls from whom they have demanded faithful obedience.

Among the prominent personages who appear personally on the  
screen—in "Should She Obey" are Governor Emmet Boyle of Nevada,  
the Supreme Court and the entire membership of the Senate and House  
of Representatives of the State of Nevada, Judge Marcus Kavanagh of  
Chicago, and former Lieutenant Governor Barratt O'Hara.

The crowds came as never  
since "The Little Girl Next Door."  
It is a strong theme—a whole-  
some picture.—Kitty Kelly in the  
Chicago Examiner.

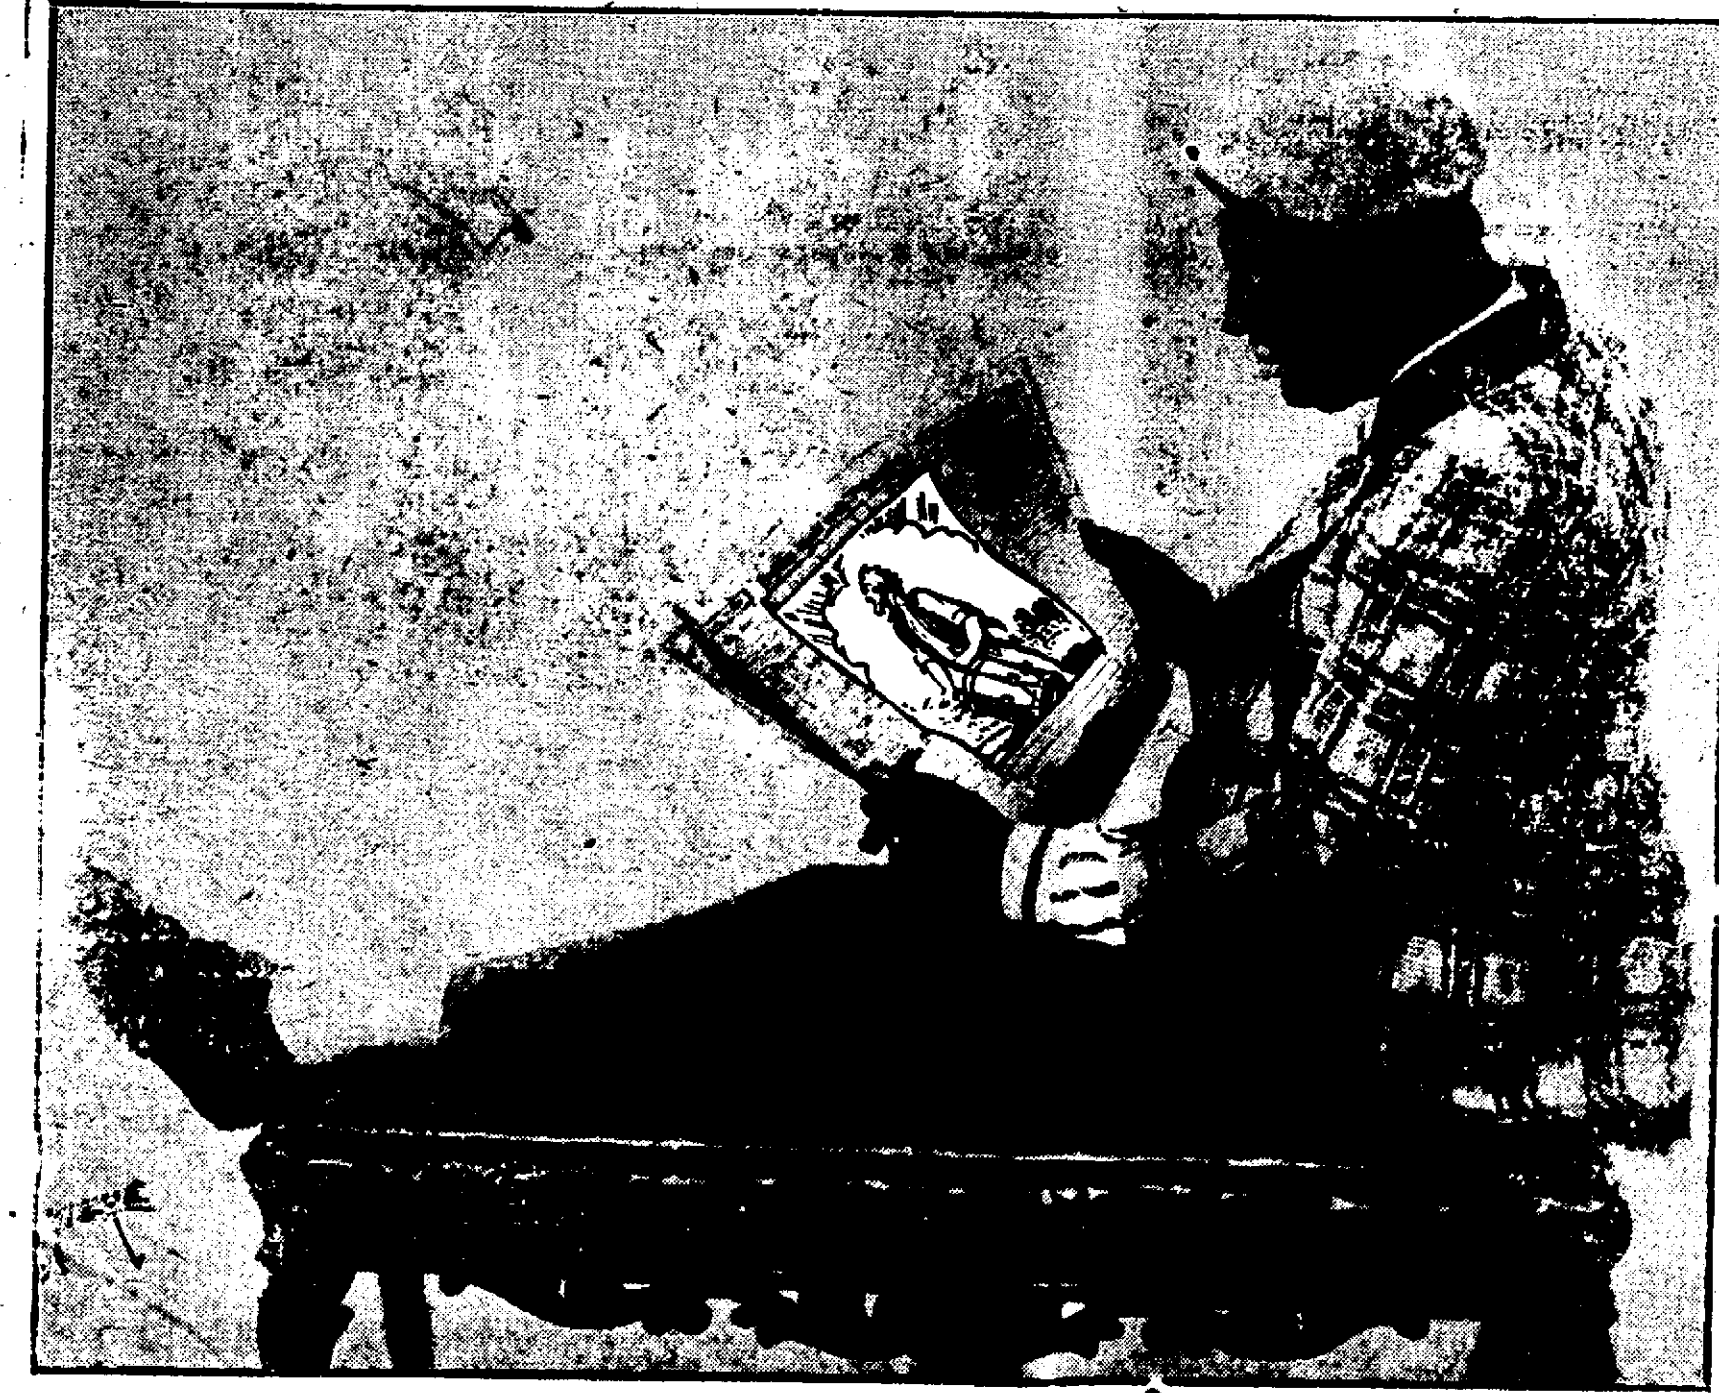

Crowds are flocking to see  
"Should She Obey" at the La  
Salle. It is a sensation.—Louella  
O. Parsons, in the Chicago

Each and every incident has had its counterpart in actual life, for  
we can all of us remember cases that are practically parallel to those  
presented. It is teeming with human interest. It should help newly  
married persons to avoid the pitfalls of life.—Oma Moody Lawrence, in  
the Chicago Post.

Photography, directing, and acting are on a par with the high  
standard set in story interest. It is dynamic and is worthy of double

A WANT AD IN THE ADVOCATE SOLVES THE SERVANT PROBLEM

# A SINGING MAN IS A FIGHTING MAN

Major General Bell Plans Choir of 44,000.

## RECREATION FOR TROOPS

Every Spade Will Work to the Melody of the Land, and Every Practice March Will Be Taken to the Lilt of Music Passed by the Censor—Is General Bell's Idea.

When the New York division of the new national army gets "somewhere in France" there is one thing that it will not have to learn. Not even the Kolnische Saengerbund, the Kaiser's picked warbling chorus, will be able to beat it singing. General J. Franklin Bell announced his plans for putting into practice his theory that a singing man is a fighting man, and the plan calls for starting the biggest singing class at Camp Upton, Yaphank, N. Y., that the country ever knew.

Forty-four thousand huskies will have their voices trained while they are learning how to get the most cubic yards of earth excavated from a trench in the least time. Every spade will work to the melody of the land, and every practice march will be taken to the lilt of music that has been officially branded as passed by the censor.

True, the officials place no contraband tag on "Hail, Hail, the Gang's All Here," "We'll All Be Enlisted" and other justly celebrated anthems of the camps, but General Bell is going to have singing scientifically taught as an adjunct to fighting, and he has conscripted Harry Barnhart, who led the big chorus at Syracuse, to take full command of the music. He plans to build two or three auditoriums on the order of that in which the Rev. Billy Sunday admonished his hearers to "Brighten the Corner Where You Are" and then to have a big stadium that can be used for an assembly of all the command.

**Appeal for the Fund.**  
The appeal for the Camp Emory Upton recreation fund which went forth from General Bell's headquarters is intended to result in making the camp where New York city's youth will train a place of educational value, pleasure and safety.

"I do not think my plans for the recreation work at Camp Upton are pretentious when it is realized we will have 44,000 men—a city in itself—at this camp," said the general.

"I have said before that singing men are fighting men. Any one who has seen Harry Barnhart leading the 15,000 soldiers of the Syracuse United States mobilization camp in song must realize the tremendous spiritual value of the work to the soldiers.

"The facilities that have been planned by the United States government for Camp Upton in this respect are inadequate, and I have asked Mr. Barnhart to go into the matter thoroughly and to advise me of the best method of meeting this situation.

"It is hoped that the citizens of New York will respond generously to the needs of their sons, as they always have."

**Singing Expresses Feeling.**  
Americans, said the general, had remained dumb as long as they could bear it, and singing is the only fitting way in which they can express their feelings in this crisis. About half of the New York city quota will be in the camp by the middle of September, and there is need for rushing the task.

In his formal appeal to the people of the city General Bell says:

"I am anxious that this camp becomes well known as one of the 'singing camps of the army,' not only because singing men are fighting men, but because I have personally witnessed the fine spiritual effect of mass singing upon the soldiers. Nothing will so aid in unifying them in mind and in spirit.

"The plans of the United States government for the training camps do not include any large meeting halls or open air stadiums where the men or even a fair proportion of them can be assembled. Two or three of such auditoriums will together seat the 44,000 soldiers who will be under my care this winter. They are essential not only for mass singing, but for mass instruction and communal meetings. My experience has amply demonstrated the vital importance of such assemblages.

"To establish this work the Camp Upton Army Recreation fund will be established by Mr. Barnhart's associates, and I will start the same by giving each soldier in camp the opportunity of contributing not more than \$1.

"We wish the New York division to feel that the citizens of New York are interested in their welfare. I trust the response will be as generous as it has always been for the welfare of the soldiers of our allies."

**Reminders Are Treasonable.**  
The sending of circulars advertising cemetery lots was construed in Philadelphia as a treasonable act directed against conscription. The case in which this charge was preferred was that of a cemetery lot salesman, who insisted on sending his circulars to drafted men urging the advisability of buying lots.

A reputation demonstrates that the hardest thing to acquire is also the easiest thing to lose.

## To France

All forgotten, O France, though years overshadow and distance,  
That wert a friend in our need, giving us valorous aid,  
Diother and sister thou wert, succoring us with assistance,  
When, in the stress and the strain, hearts were oppressed and dimmed.

Now we are eager, alert—soren we all  
Mention of being—  
Ready to come to thy aid, armed for the heat of the fray,  
Keen are our wits and our wills, steady our strength for the scouring;  
Comrades, thy sword and our own are one in their purpose today!

Where, on the meadow or plain, perchance the war fire is burning,  
Where, in the grip of despair, bravely thy warring ones stand,  
Thou wilt be at thy hand, thrilled with thy fervor and yearning—  
Thrilled with the vision of peace safely restored to thy land.

All forgotten, O France, the skill of thy work and the measure:  
Loyal, we fly to thee now, bringing a promise divine.  
Freedom shall come to thy shore, and blessings thy bosom will treasure;  
Thine is our friendship, O France, tested and proved—as thine.  
—Lurana Sheldon in New York Tribune.

## WHAT NATION MUST DO IF IT GOES BONE DRY

Capital Amounting to \$1,000,000,000 Would Have to Seek Other Occupation.

If America were bone dry capital amounting to more than \$1,000,000,000 would suddenly have to seek other occupation, according to the World's Work, from which also the following figures are taken:

More than 200,000 employees of breweries, distilleries, saloons, etc., would have to seek other jobs, and the wages on which 1,000,000 American lives depend would cease.

Besides the 1,500 breweries and 630 distilleries that would have to close their doors, manufacturers of and dealers in barrels, staves, corks, bottles, beer pumps, boxes, kegs, cigars, bar fixtures, motor trucks and many other businesses would suffer incalculable losses.

The railroads would lose 7,000,000 tons of freight annually.

The federal government would lose \$262,000,000 annual revenue, the states \$21,000,000 a year, counties \$3,600,000 and municipalities \$52,000,000.

Americans would have to find other ways of spending \$800,000,000 a year. We should have to find other uses for 52,000,000 bushels of barley, 16,000,000 bushels of corn products, 12,000,000 bushels of rice and 100,000,000 gallons of molasses.

The average flow of water over Niagara falls is 231,000 cubic feet, or about 1,500,000 gallons a second. The total quantity of alcoholic drinks made in the United States in a year is about 2,000,000,000 gallons. If this were turned into the falls it would take ten minutes for it to flow over.

If all the barrooms in America were placed side by side in two parallel rows to make one street this would be almost 378 miles long.

If all the liquor handled by the railroads were loaded on one train this would be 128 miles long and would require 100,000 freight cars.

The money paid for the 1,330,000 automobiles sold in this country in the years 1915-16—about \$1,000,000,000—would be about \$200,000,000 short of enough to buy out the stock and equipment of the country's liquor interests.

The grain used in making beer and whiskey in one year would make 4,000,000,000 loaves of bread.

The rye, corn and rice so used would feed 76,000,000 persons for 100 days.

## TO SHORTEN ARMY COAT.

Baker to Follow Pershing's Advice Regarding Uniforms.

While Secretary of War Baker declined to approve suggested changes in the regulation army coat, it is believed he will approve several recommendations concerning modifications of uniform which have been received from General Pershing.

These changes are all based upon trench conditions as found by General Pershing. It is suggested that the overcoat and "slicker" be shortened to knee length to remove the interference while walking in a narrow trench. Another suggestion is that a knitted skull cap be added to the equipment of every soldier, to be worn under the trench helmet.

General Pershing also recommended the adoption of a jacket made of leather and blanket lined, instead of the present fleece lined garment; changes in the length of gloves and in the type of puttees now issued were proposed.

**Ting-a-ling-a-ling!**  
Instead of referring to them as "the ladies of hell," why not denominate the kilties euphoniously and briefly as "ladies of bell?" asks the Chicago Tribune.

**A Fair and Square Judge.**  
When two Elm City, W. Va., men went to court over a fox terrier's ownership the judge sent them to opposite corners and left it to the dog.

**Too Best Fed Army.**  
While 1,000 master chefs from leading hotels as supervisors, the big national army will be the best fed in the world's history.

**Hoax.**—"I saw you going into the chiropractor's yesterday." "Joax—" "Yes, I acknowledge the corn."

# PERSHING CALM IN A GREAT TASK

Has Ability to Do His Work Without Worrying.

## UNMOVED BY DIFFICULTY

Eager in Preparations for Campaign, but "Will Never Do Anything Rash," Says Joffre—Linn County, Mo., Would Be Proud to See Her Product in Paris.

It is doubtful if any other man has been more in the public eye of Europe these last few weeks than General John J. Pershing. The English and French public has watched General Pershing with the interest that centers in the head of one of the greatest movements the world has ever seen, says Charles H. Grasty, writing from Paris, in the New York Times.

America will shortly be asking, if she has not already asked, how Pershing is measuring up to the work of leadership. Dispatches have indicated the preliminary success achieved by him.

As a diplomat I doubt if he is surpassed in the service of any country. He begins with the advantage of looks, though he has none of the drawbacks of masculine pulchritude. If a sculptor were commissioned to make a heroic statue to represent West Point he couldn't do better than take General Pershing as his model. Nor is he merely a military figure. His personality is equally typical of American strength and manhood.

These personal attractions and graces are used with a naturalness which won Paris instantly. I doubt if there is another man of any race who at this moment could bring to bear a greater influence on a Paris crowd if occasion should demand. It may be set down as a certainty that in all dealings with the French public and in his relations with the statesmen and generals the American commander will "do his country proud."

During the period when there was misunderstanding and miscarriage in the censorship I had frequent occasion to talk to him and must have expressed my sense of grievance with considerable emphasis. He encouraged me to do so. One day I said to him:

"General, you have enough responsibilities; I am not going to worry you with fault finding about the censorship."

"Well, if you are letting that idea trouble you dismiss it," he replied, with a smile. "I don't let anything worry me. I try to do a good day's work, and when it is finished I go to bed. And, what is more, I go to sleep."

## A Man of Sound Health.

A wonderful doctrine if a man can only live up to it. And General Pershing does absolutely. Perhaps it is largely a matter of sound health. His own sensitiveness is there—he would rather almost be accused of dereliction than to be thought ill.

Perhaps that is a survival of the farmer boy's pride of strength. The farmer boy is always bobbing up in Pershing. Linn county, Mo., would be proud to see the evidences of her early imprint on the man whose farming now consists in an occasional look from the window or the porch at the most beautiful garden in all Paris, for such is the garden of the great house that Ogden Mills has lent the general. This is a garden, Linn county must know, not for vegetables, but for flowers, trees and green grass. It is behind the Rue de Valenciennes in the very middle of Paris.

General Pershing's "don't worry" policy is part of a philosophy that he has worked out and that he practices in his daily life. He believes in difficulty as the very staff of opportunity. A man that could chase Villa while enduring Carranza and still keep his temper and serenity has a right to be considered a seasoned optimist. Even war work Europe seems pretty good after Mexico, of which it has been sung:

More rivers and less water,  
More cows and less milk.  
Further to look and less to see  
than any other country in the world.

## Couldn't Restrain Enthusiasm.

When the president's address of April 2 reached Mexico and was read by General Pershing at his headquarters he couldn't restrain his enthusiasm. There was no self seeking in his feeling. He hadn't then the faintest idea of commanding the European forces. He was deeply stirred by the great address when he read the pregnant and eloquent sentences and, jumping to his feet, gave his feelings full vent in the presence of the soldiers and newspaper correspondents.

"I'd rather live today and have some part in these great things," he said, "than to have lived and occupied the highest station at any previous time in history. We are going to establish democratic institutions in the world for all time, and every man who can have a share, however small, in the work may be proud."

General Pershing is sound, cautious, considerate. He has a good heart and an abundant sense of humor. Marshal Joffre said to me: "General Pershing will never do anything rash. He will consider first and act afterward." You can put this over against what an English statesman with American associations said to me the other day about a great executive position. "We want a man for that job who is willing to take a chance on spilling the beans."

## HAIR HINTS

Helpful Advice for Care of the Hair Worth the Attention of Everyone Who Would Avoid Dandruff, Itching Scalp, Gray Hair and Baldness.

If your hair is getting thin and you are troubled with dandruff or itching scalp, get about four ounces of Parisian sage from your druggist. This helps to prevent baldness and grayness and keeps the scalp clean.

"Before going to bed I rub a little Parisian Sage into my scalp," says a woman whose luxurious, soft and fluffy hair is greatly admired. This keeps the hair from falling out and makes it easy to dress attractively.

A lady visiting friends says: "Parisian sage is the best hair treatment I ever used. It keeps the scalp free of dandruff, prevents hair falling and stops itching scalp."

Everyone knows sage is good for the hair, but be sure to get the best Parisian sage (Garcinia) for this will not stain or streak the hair and is delicately perfumed. W. A. Erman will supply you.—Advertisement.

## RHEUMATISM

Physician Believes a Genuine Remedy for the Disease Has Been Found.

Rheuma, the wonderful rheumatism remedy sold by T. J. Evans and all druggists, gives quicker and more lasting relief than other remedies costing many times as much. Rheuma passes the deadly poisonous secretions into the bowels and kidneys, from which they are quickly thrown off in a natural healthy way.

Read what a reputable physician says about Rheuma: "I have made a most careful investigation of Rheuma, and I heartily recommend it as a remedy for all forms of rheumatism. I find Rheuma far in advance of the methods generally employed in the treatment of rheumatism, and altogether different in composition from the remedies usually prescribed."—Dr. Lyons.

This should give any sufferer from rheumatism confidence in the remedy.

It is possible for a fellow to blow himself without blowing his own horn.

**Paper Finally Arrives.**  
 Manager Geo. M. Fenberg has been greatly worried over the non-arrival of the paper for the Neil O'Brien Minstrels, to appear here Saturday afternoon and evening. It finally came today after having been in transit a couple of weeks and is being put over the city.

**Child Breaks Leg.**  
 James Rinehart, Jr., son of Mr. and Mrs. James Rinehart, of Summer street, broke his leg in a fall Monday night at the home. He was sliding down a board when he fell breaking the leg above the knee. Dr. H. J. Davis was called to dress the injury.

**Draws Heavy Fine.**  
 Ed "Spade" Targett, discharged from the city prison yesterday morning was back again before night. He was picked up last evening shortly after 7 o'clock by Officers Goff and Stewart, and put up a battle. This morning he was fined \$105, which includes costs, for being drunk and disorderly and resisting an officer.

**License to Marry.**  
 A marriage license was issued in Columbus to Ralph Terrill, 23, a musician of Newark and Zeldia Clouse of Columbus. Mr. Terrill's address is not listed in the city directory.

**Fractures Arm.**  
 Joe Gajbor, employed at the B. & O. shops, had his arm fractured this afternoon when a side bar fell off an engine on which he was working. He was removed to the Newark Sanitarium in the Bazler ambulance.

## THE COURTS

**Suit for Money.**  
 Helen Croke has filed a petition in the court of common pleas against Edward Kibler, as administrator of the estate of Katherine Hudebath, deceased. The petition alleges that on August 20, 1917, plaintiff presented a claim to defendant for work and labor performed at the request of the decedent but that it was refused. She claims that the defendant is indebted to her in the sum of \$1,438 for work and for caring and nursing the decedent which she prays the court to allow.

**Temporary Quarters.**  
 Auditor J. W. Hursey and force of clerks were compelled to keep shelter in the office of the county commissioners today, owing to the fact that the sand blaster engaged in cleaning the court house were working on the west wall today and the dust or flying sand found its way into the auditor's office.

**Married by Justice.**  
 Willis B. Brown and Mrs. Leota V. Drake were married by Justice D. M. Jones in his office in Third street yesterday afternoon. They will make their home in East Newark.

**COST OF DAIRY HEIFER USUALLY UNDERSTATED.**  
 What does it cost to raise a dairy heifer to one year and to two years old? This question is answered in the September Monthly Bulletin of the Ohio Agricultural Experiment Station, in which the claim is made that dairymen usually underestimate the value of heifers.

**Food alone at medium prices costs about \$33 for the first year and \$28 for the second. Cost accounts of raising calves by the Ohio, Massachusetts and Connecticut Experiment Stations and the United States Department of Agriculture were used as the basis for these figures.**

**Labor, interest and miscellaneous overhead expenses must be added to this feed cost. The two-year-old heifer must be credited with a calf and the manure produced during two years. The net cost at medium prices is then given in the bulletin at \$44.77 for the first year and \$29.08 for the second. At present high prices the net cost for two years rises above \$100.**

**Economy in dairymen and care in breeding only good stock are therefore necessary. The heifer from a low-producing dam and an inferior sire will not return the cost of her production and maintenance.**

**HELD FOR AUTO THEFT.**  
 (Associated Press Telegram)  
 Sandusky, O., Sept. 25.—Three men giving names as Eugene Olmstead, George A. Gregory and Charles Hiney and their homes as Glen, N. Y. were arrested here today for being tried to sell a large automobile. Police say Gregory confessed that the car was stolen Sunday at Fultonville, Montgomery county, New York.

Everything is going up. Even highballs will soon be getting higher.

# HAVANA DOCTORS EXEMPT LOCAL MAN FOR BAD EYESIGHT

The local exemption board today exempted Louis Ray Lane, on account of physical disability. Mr. Lane, a former Newark boy who resided with his mother in Hudson avenue is now located at Havana, Cuba, and the exemption was granted after he had been examined by Drs. Damaro T. Lane and Aristides Agramonte at Vedado, Havana, the physicians finding that he had catarrhal trouble and bad eyesight.

No orders have been received by the local board as to the date when the next contingent of soldiers from this city and county will be sent to Camp Sherman. It will be either October 3, 4, 5 or 6. Governor Cox received orders yesterday from Provost Marshal General Crowder to have 30 per cent of the men ready to go on the above dates.

Fifty-six men will leave from Newark and forty-seven from the county. The remaining 25 per cent will be sent at a later date. No further exemptions have been granted by the local or district boards.

## EXPRESS BUSINESS SWAMPED; APPEAL FOR CO-OPERATION

An appeal to the business men and manufacturers of the country to aid the express companies in handling their abnormal business is contained in a bulletin received by Agent P. W. Faust of the Adams Express company. Because many express and baggage cars are being used in troop movements, the rolling stock is limited and the express traffic is substantially larger than it was last year.

Shippers are asked to prepare their shipments as early in the day as possible to avoid congestion at terminals. The request also is made that motor trucks and freight facilities be utilized for the shorter hauls wherever possible. By close co-operation the bulletin says, much delay can be avoided. The appeal is signed by the four leading express companies of the country.

## PEOPLE GIVE ONLY BRIEF THOUGHT FOR ETERNITY

At the tent meeting on East Main street last evening, Rev. Mr. Short's subject was "Prepare to Meet Thy God." He said: "People live on this earth only about 50, 60 and 70 years, and put in all their time preparing for life here and neglect to prepare for eternity, when the judgment is inevitable and eternity unending." He urged the people to prepare to meet God, and said it was of more consequence than anything else in this life. Mr. Canaday sang "Christ Crucified." These meetings are helpful to all who attend. Come this evening at 7:30 o'clock.

## ENDEAVOR MEETING AT OLD STONE PILE CHURCH

A complete tour of all the Christian Endeavor societies in the county is being planned by the county officers to make plans for the state convention of the Christian Endeavorers, which is to be held in this city next June. The state officers met with the local officers last week and plans are already being started on the program. Rev. Calvin G. Hazlett, D. D., pastor of the First Presbyterian church, has been chosen as general chairman, and the committees will soon be appointed. On Thursday evening the county officers will visit the Endeavorers in Old Stonepile church, southeast of Clay Lick, to impart to them the plans and preparations which are being made, and as fast as possible all the Endeavorers in the county will be visited.

**BELEGIANS EXECUTED.**  
 Amsterdam, Sept. 25.—Advices have been received from the frontier by the Telegraph to the effect that about 30 residents of Ghent, Belgium, have been put to death in the last three weeks on charges of espionage.

"There's a Reason"

**Origin of the Matinee.**  
 Whether or not we have to look back to the offices for the first matinee, there is at least little doubt that the invention had not attained any general popularity when the seventies were reached. I am reminded that the Bancrofts, who were responsible for many innovations that have since become the vogue, did not institute afternoon performances until 1870, after they had been in management eleven years. The Bancrofts, if not the inventors of the matinee, were certainly the first to pay full salaries to those who took part in them.

Not until 1878 did the matinee become a fixed and regular feature of even the Bancroft management. It was a byproduct of "Diplomacy," the success of which made any means of providing additional performances acceptable. Sir Squire Bancroft has put it on record that at the beginning the matinee was a much more costly affair than it is now, as frequent and separate advertisements and announcements were necessary to make it known.—Westminster Gazette.

**A Defect in Higher Education.**  
 It must be said that the higher education of the United States is at present in a condition where it may readily drop backward rather than improve. The college student of today and in some cases even the university student is permitted to sprawl over so large and so varied an area of intellectual interest that he loses the discipline in concentration, in hard work, and in the mastery of some relatively small field that comes from pursuing a better and older method. There is just now, however, a marked tendency among the better colleges to aid and to guide the student toward concentrating his interests and his energies upon a small group of subjects that have some common center of interest and some well marked relationship. This movement is a sound and hopeful one and should be encouraged and aided.—President Butler in Youth's Companion.

**Salt Means Much to Health.**  
 "If the human race should be deprived of salt even for a period of a few months," said a physician, "we would not only lose a natural healthful incentive for our food, but disease, with all its attendant miseries, would spread with such relentless speed as to defy the efforts of the most skillful doctors of the land. All persons frequently refuse sugar, but they seldom turn up their noses at common salt. That is because there is in the body a deficiency of chloride of sodium, and nature intuitively excites the desire for it. Salt is essential to health and life and is as much a food as bread or flesh. If there is no wish for salt in a person doctors uniformly conclude that disease in some form is lurking unsuspected in the system."

**Obliterating Class Distinctions.**  
 Modern and cultured persons, I believe, object to their children seeing kitchen company or being taught by a woman like Peggyotty. But surely it is more important to be educated in a sense of human dignity and equality than in anything else in the world. And a child who has once had to respect a kind and capable woman of the lower classes will respect the lower classes forever. The true way to overcome the evil in class distinctions is not to denounce them as revolutionists denounce them, but to ignore them as children ignore them.—G. K. Chesterton.

**The Spanish Alcalde.**  
 In former times in Spain the alcalde de corte was a judge of the palace court, having jurisdiction in and about the residence of the king. The office is now obsolete in this sense, but "alcalde" is still used to designate the mayor of a town exercising the functions of a justice of the peace.

**Why He Looked Sour.**  
 Dusty Dennis—Why do you look so sour, pard? Gritty George—Why, one of dem comic artists wanted me to sit on de fence and let him sketch me. Dusty Dennis—What of dat? Gritty George—It was a barb wire fence.—Exchange.

**News to Mar.**  
 "What was the farmer talking about?" asked the first city girl. "A whiffetree," said the other. "Well, I've studied botany, but I never heard of a whiffetree. Sounds like his idea of a joke."—Louisville Courier-Journal.

**PRACTICAL HEALTH HINT.**  
**Flat Feet.**  
 A treatment suitable, with but slight modification, for all cases of static foot trouble (flat foot), from the early cases which are often described as "weak ankles" to the most severe cases, where there is old standing structural change, is described by Dr. P. B. Rath in the Lancet. The treatment consists of attention to footwear, attention to position in standing and walking and regular daily exercises. Whether boots or shoes are worn, whether they button or lace, they must be of the shape of the feet. The inner side of the foot where the big toe lies is kept straight, so that the end of the foot is opposite the big toe and not opposite the second or third toe. This is to insure that the big toe is not pushed out against the other toes and has plenty of room in which to act. The toes should be a sixth to a fourth of an inch thick, the heels broad, an inch or less in height.

He scoffs at scars who never felt the prick of conscience.

# NAVY LEAGUE WANTS 5,000 WOOLEN SOCKS FOR THE MARINES

An urgent appeal for prompt delivery of 5,000 woolen socks knitted of the heaviest possible material has been sent out by the chairman of the Navy League of America, under whose auspices American women are knitting for the sailors and marines. A message from France received September 18, said "our Marines are shivering with cold." The socks should be about size 12. The same message also appealed for 5,000 comfort bags which not only serve a practical purpose at the front but furnish much enjoyment and comfort to the soldiers and sailors.

In a bulletin issued showing the work done under the auspices of the Navy League, the statement is made that since Aug. 17 more than 23,000 garments have been sent abroad and up to Sept. 14, over 400,000 articles, valued at more than one million dollars have been placed where they would be of benefit to the defenders of the nation.

Mrs. George Dewey, wife of the late naval hero, has accepted the chairmanship of the comfort committee of the navy league and is assisting in the directing of the work.

## INTERURBAN CARS CRASH AT SIDING; 2 SLIGHTLY HURT

Two interurban cars, Nos. 21 west bound and No. 22 east bound, collided head on at Idlewild siding, opposite the baseball park in West Newark. One of the cars was at a standstill and the other was only going at slow speed, also many passengers as well as the trainmen might have been seriously injured.

The accident occurred at 3:30 o'clock at about the same time, same place and almost the same time of year as the one of eight years ago when several people were injured when two cars collided, during a ball game at Wehrle Park.

Train 21 was in charge of Motorman Martin Luther and Conductor James Green, both of this city, while train 22 was in charge of Motorman H. H. Dickey and Conductor Fred Pickering, both of Columbus.

The west bound car was on the siding "drifting" for clearance, and went a little too far. The east bound car coming down the track collided head-on and there was a crushing grinding sound, glass in the front end vestibules of both cars being broken. The motormen when they saw that a collision was inevitable, stepped back into the baggage compartment.

Only three passengers were injured, Mrs. John Wilson, of near the Licking church north of Hebron, Mrs. S. C. Barnett of 475 Verton Place, Columbus, and a man whose name was not learned. The two women were brought to the Newark Sanitarium where an examination revealed injuries of a minor nature. The damaged cars will be brought here to be overhauled.

## CHOOSE SPEAKERS FOR MONUMENT DEDICATION

(Associated Press Telegram)  
 Youngstown, O., Sept. 25.—Former President William H. Taft, Secretary of War Newton D. Baker, Senators Atlee Pomerene and W. G. Harding, Governor James M. Cox of Ohio, and Joe Mitchell Chapple of Boston, were announced today as speakers at the dedication of the McKinley memorial at Niles, October 5. President Wilson notified the local committee in charge of the dedication that he would be unable to attend.

## THE AUTOCRAT OF WRITING PAPERS

Crane's Lined Lawn is undoubtedly the autocrat of writing papers. Of fine ancestry, it makes its appeal by the quality of its texture, by its goodness as writing paper. It has the further advantage of color for those who prefer color, as there are a number of fashionable and beautiful shades. Additional choice is afforded by colored borders, with or without gold edges; by several sizes of letter sheets, by correspondence cards, and the newest flaps of envelopes.

A big, new line at Edmiston's.

**"MY WONDERFUL DREAM."**  
 Another hymn from Billy Sunday's revival song repository, sung by Homer Rodeheaver, Sunday's gifted haritone soloist, is included in a late Columbia record announcement. Its title is "My Wonderful Dream," a "vision of light" that will uplift all hearers, of whatsoever creed, with its ennobling faith.

Although of powerful strength, the voice of Rodeheaver possesses a sympathetic timbre that never fails to touch the heart. And this appealing quality was never more noticeable than in this splendid recording of "My Wonderful Dream."

**He Learned Later.**  
 They had plighted their troth, and were talking thing over. They both decided to be quite unlike other married couples—forgetting and long-suffering and patient with each other.

"No!" said the man. "I shall not be like other husbands who get cross and bang things about if the coffee is cold!"

"If you ever did," said the girl, sweetly. "I would make it hot for you!"

And the man wondered what she meant. —Pittsburgh Chronicle-Telegraph.

Mean.  
 Young Arthur was wrestling with a lesson in grammar. "Father," said he, thoughtfully, "what part of speech is woman?"

"Woman, my boy, is not part of speech; she is all of it," returned father.—Milwaukee Sentinel.

For the next ten days The Advocate will accept orders for delivery of this newspaper daily by mail to the soldier boys at the rate of 25 cents a month. The address may be changed as often as necessary and the home paper will follow the soldiers to France. The Advocate is like a daily letter from home to the boys in camp. Many of the Licking county boys now at the Chillicothe, Montgocery, Ala., Indianapolis and New York camps are receiving The Advocate every day through the courtesy of friends or relatives back home. It is a little thing to do—it costs less than a penny a day—but it is the little thing that counts. Ask the boys who are home on furlough if they like to receive the home newspapers. Now, while you think of it, send an order to The Advocate to start the paper daily to that soldier or sailor boy who is in the service. The rate up to October 1st will be 25 cents the month for the paper by mail.

## DR. SPARKS' RETURN WILL BE ASKED BY FIRST M. E. CHURCH

Rev. L. C. Sparks, pastor of the First M. E. church here, has been asked to return to his charge here for the coming year. This action was taken at a meeting of the quarterly conference held last night at which 43 members were present. The request was made following a report from the pastor's supply committee which recommended that he be requested to come back for the good of the church, and upon the motion to adopt the report and recommendation there was not a dissenting vote.

**MANURE WILL RAISE THE YIELD OF WHEAT.**  
 Barnyard manure can be used on wheat ground this fall and winter to take the place of fertilizers ordinarily applied. From two to four bushels of wheat was returned this year from each ton of manure used in moderate applications at the Ohio Agricultural Experiment Station.

The wheat yield under continuous culture on the Experiment Station farm at Wooster was raised this year from 11.85 bushels to 33.79 bushels per acre by five tons of manure. Eight tons of manure on corn, wheat, clover and timothy increased the yield from 12.82 bushels to 37.44 bushels per acre. The same application on wheat in a three-year rotation of potatoes, wheat and clover resulted in a yield of 50.79 bushels per acre, while unfertilized land in the same rotation yielded 34.66 bushels.

**More Expensive Trimming.**  
 Halefeller (wildly)—"What? Do you mean to tell me, woman, that it cost \$29 to get that hat trimmed? Jumping Jupiter! But that milliner's game is the limit!"

Mrs. Halefeller (sweetly)—"Really? Why, I understood it costs some men more than that to get trimmed in a poker game."—Pittsburgh Chronicle-Telegraph.

The man who wastes his time seems to lose sight of the fact that he will need it all before he dies.

The man who is his own worst enemy seems to be mighty good company for himself.

## WATCH ADDRESS ON YOUR MAIL TO SOLDIERS IN CAMP

(Associated Press Telegram)

Camp Sherman, Chillicothe, O., Sept. 23.—Forty-five per cent of Ohio's full quota of draft soldiers were down to business today. A small per cent, incapacitated from sickness due to vaccination and inoculation were fit for service this morning and Camp Sherman's drill fields were dotted with companies of men learning the first of the war game.

In the 32nd infantry 20 men selected from those who came in the first increment of five per cent, were doing their first work as officers today. They won warrants as corporals and sergeants for earnest and tireless effort to become good soldiers, the regimental adjutant told newspaper men.

Private Anthony Panza of Lucas county was made a sergeant of Company A.

Corporal John French, Jr., was promoted to sergeant in Company K. Privates Victor J. Mahoney, Edward C. Peck, Glen C. West, William Wagner, Vernon Blowers and Francis A. Rupp were honored with sergeant's chevrons in the same company. They are "five per cent" men from Erie and Crawford counties.

In Company F, those getting sergeant warrants were John P. Timmerman, Russell L. Hine, and Clyde W. Harper. Corporals' warrants were issued to Francis Callahan, Earl Mascher, and Ernest Walker. Company E men promoted to sergeants: Paul H. Hemstey, Frank H. Miller and Robert J. Bessonet. Promoted to corporals: Joseph Lukas, Fer Deforrest Harrison and Carl W. Farison.

The 32nd infantry, in which the promotions were made today is composed of North and Northwest Ohio men.

Company M, of the 330th regiment is believed to hold the honor for having most foreign born draftees in its ranks. Of the 234 men in the company today, 126 are native born. Five of these: Frank Morrison, Dan Paul, W. H. Patterson, Edward Patton and John Wilson, secured transfers to the machine gun company of the regiment. Company M is composed largely of soldiers from Washington county Pennsylvania.

Attaches of the newspaper office today appealed to newspapers to urge all persons writing to men at Camp Sherman to give full addresses, especially the number of the regiment and the name of the company. They also warned against sending perishables to Camp Sherman until perma-

nent addresses of men here are definitely known. Great piles of mail congested the office today, most of it coming to the draftees who arrived since last Wednesday.

The first officers' dance in Camp will be given Saturday night by the officers' club of the 32nd regiment. Permission to use the regimental Y. M. C. A. floor was secured. Mrs. Bell, wife of Lieutenant Colonel J. E. Bell and Mrs. W. S. Story will be honorary patronesses.

Bayonet fighting as it is being taught at this military training camp for Ohio and Western Pennsylvania draftees, knows little defense.

Offense, or "getting the Hun" is the one big thing in learning to handle the "pin," as instructors call the wicked knife or bayonet on the end of the rifle.

The lessons have little about defending one's self against attack. About the only defense taught is to waste no motion. Just a very slight tilt of the gun when the enemy is coming upon the bayonet fighter makes up the chief part of the protection end of this very important asset of modern warfare.

Men here are being trained to meet the enemy's jab or thrust with not more than a six-inch movement of the rifle. This is required because when the enemy is rushing to the bayonet attack, he has but one chance—the first lunge. If this can be knocked off with a slight movement the assailant is pinioned upon the enemy's bayonet.

Selecting draftees will get the full British bayonet course before they leave Camp Sherman and it will be so wholly different from the old bayonet exercise as to compare little with it in the simplest manipulations. The course likewise will include a certain amount of wrestling, tripping, Jui Jitsu and a vast number of ways of using the "pin," required for various circumstances under which attacks are made—from above, from below, from one side, around the corner of a trench, etc.

One of the striking "different" things about bayonet fighting so far as Americans are concerned is that it will require fighting "from either foot." The American army has always fought with the left foot to the fore.

Organization for athletic contests, football in particular has been started at Camp Sherman under leadership of Y. M. C. A. physical directors, headed by Coach Connor, one of the best-known out-door sport directors in this part of the country, and soon the camp will be one of the greatest sport fields the state has ever known. Forty-three thousand physically perfect fellows of "athletic" age insure that.

Major General E. F. Glenn, camp commandant, soon will name an officer who will be the court of last resort in athletic matters for the entire division stationed here. Then there will be a board of three army officers well versed in sports who will be in general charge of all athletics. Under these three will be one officer from each regiment. Then under each regimental member will be company representatives. An officer will be designated, probably a lieutenant, to take care of all athletic affairs in his company. This officer in turn can pick his leaders, such as a man to handle football, another to handle baseball, still another for boxing and so on—taking in all sports, such as tennis, hand ball, indoor baseball, basketball, quoits and other games.

Football practice already has been started by some "outfits," but it will not be on in full swing until some of the new recruits get over the effects of their vaccinations. Several organizations already are raising funds for bats and balls, footballs and the like.

## LICKING COUNTY'S SOLDIER BOYS

The Advocate service medal fund for Licking county soldiers and sailors has passed the \$500 mark. The contributions today total \$509.58. As the cost of 750 medals is \$567.49, including engraving and postage, the amount still needed is \$66.91. The Advocate received contributions yesterday from Frank Knauber, W. E. Fulton, F. Cosway and Mary C. M. Jones.

The Advocate acknowledges with pleasure the receipt of a dollar from Miss Mary C. M. Jones, 303. The Windsor, Washington, D. C., for the soldiers and sailors service medal fund. Miss Jones is the daughter of Mr. Evan E. Jones of North Fourth street.

Editor of the Advocate:—I received your parcel (containing engraved service medal) Sept. 9. Letter follows at first opportunity.—Arch B. Leedy, U. S. S. Jacob Jones. (Passed by censor Sept. 10, 1917.) Mail for Mr. Leedy should be addressed "Machinist's mate, U. S. S. Jacob Jones, care Postmaster, New York."

Editor of the Advocate:—The Licking county medal was gratefully received. Please pardon the tardy acknowledgement of same and assure the people of Licking county that I am proud to wear such a gift.—Yours truly, L. P. Shinn, Second Infantry company, O. T. C., Ft. Benj. Harrison, Ind.

Editor of the Advocate:—Today received the bronze service medal from the people of Licking county. Wish to thank them and you kindly.—Charles S. Kibler, First Lieutenant Medical Corps, 437 South Cummings street, Los Angeles, Calif.

Editor of the Advocate:—The Licking county boys who left Thursday for Camp Sherman wish to thank Mr. Spencer and the people of the county for the beautiful bronze service medals and the lunch boxes presented to them. Oh, you chickens! You will find enclosed remittance for Daily Advocate starting at once. Address Clark Zimmerman, Battery D, 324 Reg. Heavy Artillery, Camp Sherman, O.

Editor of the Advocate:—I wish to thank the people of Licking county for the medal that was presented to me before I left Newark.

## STREET CAR HITS W. D. FULTON'S AUTO SECRETARY ESCAPES

Columbus, O., Sept. 23.—Secretary of State Fulton experienced a narrow escape from possible serious injury yesterday, when his auto was struck by a street car.

He was turning from Third street into the statehouse parking space when a Sumner street car struck the rear end of the machine, whirled it around, broke off one wheel and damaged other parts of the machine. Fulton escaped with slight bruises and a bad shaking.

## GRANVILLE

(Special to Advocate.)

Granville, Sept. 23.—Mrs. L. A. Austin received a telegram announcing the sudden death of her brother, Captain John Thrall, 75, of Columbus, which occurred early this morning. Mr. and Mrs. Austin immediately motored to Columbus. No details were given in the telegram. Captain Thrall is well known throughout Licking county.

Arthur Meyers of Pittsburgh was in Granville Sunday to visit his mother, Mrs. Sarah Meyers, who sustained painful injuries in a recent automobile accident in Newark.

William Carpenter left this morning for a few days' visit with his brother, near Toledo.

Mrs. J. D. Thompson was featured yesterday in pleasing birthday observances, closing with a box party of five at the Opera House. Mrs. Thompson is the wife of "Two Little Toys," Mrs. C. W. Chamberlain.

Mrs. W. P. Ullman, Mrs. Margaret Halderman, Mrs. Burton Case and the honor guest made up the party. Announcement was made by President Chamberlain in assembly recently, that in order to co-operate with the government in the effort to conserve the food of the nation during the war, the social activities of the various college organizations will be somewhat restricted during the coming year. Sheppardson college will send one chaperone a month to each of the men's organizations entertaining college girls.

On Friday afternoon, Sept. 23, Mrs. J. G. Ewart will entertain the W. C. T. U. at her home in South Main street. The tonic will be: "How Business Flights Alcohol." The leader, Mrs. Carl Price. A large attendance is expected.

Miss Frances Adkins of Chicago has been the guest of Mrs. J. G. Ewart during the week and has been renewing old acquaintance in the town where she spent her early girlhood as a student.

Miss Mary Jones, who has been ill for some weeks at "Monomoy Place," Broadway, is again able to be out, and it is hoped will soon be herself again.

Mrs. E. J. Dorsey, who has been

I shall always keep it and consider it quite an honor to wear it. I hope you will pardon me for not writing sooner, but I have been very busy as have all the new men in camp.—Yours respectfully, Merle E. Martin, A. S. U. S. N., Norfolk, Va.

Editor of the Advocate:—I will answer your welcome letter and thank you and Licking county for the medal that I received from Newark. O. I have it placed over my heart, and it is going to stay there until I come out of the trenches in France and Germany. I have a red, white and blue ribbon on it and around my neck and over my heart and a Bible in my pocket, and if I get shot through the heart in the trenches it will have to go through the medal and the Bible before it gets me. I can say one thing for the New York people, they treat us fine, but not as well as the Ohio people do. There are about 14 people here in this company from Newark, O., and I am going to send you my friend's name and address from Newark. He is Mr. Wilbur Carter, Co. G, 166th U. S. Inf., Hempstead, L. I., N. Y.

We all are proud of Licking county for sending so many men as she did when the draft came on. We get pretty good eats here now, but not as good as we ought to get. But this isn't our officers' fault. It is because we can't get it. It is the reason we don't get it. I wish all of the Licking county men that I don't know good luck and God bless them. I am going to bid the Newark people and all of our friends in Licking county good by and wish to get back to see them some time.—Yours truly, Corp. Marion E. Williams, Co. G, 166th U. S. Inf., Hempstead, Long Island, N. Y.

Editor of the Advocate:—In compliance with your request I acknowledge receipt of the bronze medal and want to thank you and the people of Licking county for this token of their appreciation. For it is something one can have at all times from the folks back home. There are a number of men here in the officers' training camps, some of whom I have met and understand that they are all doing well in their work. Again thanking the people of Licking county for their appreciation. I am, yours very truly, Reaves W. DeCrow, First Lieut. M. R. C., Fort Harrison, Ind.

on the sick list, was able to sit up for awhile yesterday and today. T. M. Kier demonstrates his recovery from a dangerous illness by appearing at his office every day. Dr. C. L. Williams is once more his old genial self though still somewhat under the weather. Yesterday in discussing the present situation as regards certain recalcitrant senators, the query was made: "But aren't there impeachment laws?" "Can't he be relieved of his office?" "Well," observed Dr. Williams with a whimsical smile, "you know it is hard to turn a dead horse out of pasture!"

## DOCTORS AT MEETING FAVOR EASY DEATH TO ALL INCURABLES

(Associated Press Telegram)

Chicago, Sept. 23.—The American Association of Progressive Medicine in convention here is an record as favoring a movement to have state legislature legalize the administration of an easy death to the hopelessly incurable.

The decision was made last night by vote of 27 to 24 on a motion to refer the proposition to a committee with instructions to submit to the legislature of every state the recommendation of every action favorable to the procedure.

One of the features of the meeting today is a clinical demonstration by Dr. L. D. Rogers, former Licking county physician, of his Auto-Hemic Therapy, a blood serum treatment for which great claims are made.

## GERMAN AIR MEN KILL OWN WOUNDED WITH EXPLOSIVES

(Associated Press Telegram)

British Headquarters in France and Belgium, Sept. 14. (By Mail).—German agencies recently have been spreading broadcast on the continent the report that serious differences have arisen between the British army medical service and the American surgeons and physicians who have been working with the British forces in France. The story has been given special publicity by its sponsors in Belgium and France. For the purpose of proving or disproving this statement, the correspondent of The Associated Press accredited to British general headquarters has made a careful investigation of the facts, visiting not only base hospitals which have been taken over by American medical units, but casualty clearing stations in which American surgeons and medical corpsmen are working. Here is the truth:

The utmost cordiality has and does exist between the British medical service and the Americans who are working with them. The assertion that there has been any quarrel between the two bodies is without foundation. As one eminent American has put it:

"The story is a gross canard. The reason for circulating it is obvious. The Germans are trying to create among Belgian and French civilians a contempt for America and Great Britain and consequently a hostility toward these two nations."

The six medical units which were sent over from the United States to take charge of six British base hospitals have become a part of the smoothly running organization that the British have developed. The Americans feel that they are fortunate in their position. They realized that they have much to learn about war hospitals and they are having the opportunity of learning rapidly from men who have had more than three years experience.

The British, on the other hand, recognize fully the sacrifices that have been made by the Americans, many of them eminent surgeons with big practices at home, to come to France to do their bit in caring for the wounded. These sacrifices are appreciated and the attitude of the British medical service, from the director general down, has been most sympathetic and helpful.

The excellent work being done by the American units has frequently been the subject of the most complimentary remarks by all ranks of the British medical organization. The service which the workers from the United States have performed is characterized as one of the bright spots in a war which is causing so much misery.

Roughly speaking, the six base hospitals conducted by the Americans have beds for about 1500 patients each, and there are many times when they are filled to overflowing, for

base hospitals must care, not only for their own wounded, but for Germans as well. The six base hospitals have in addition to their other work, furnished some ten surgical teams for service in casualty clearing stations near the firing line. These teams usually consist of a surgeon, an assistant, a nurse and orderly. American surgeons whose names are famous internationally, are laboring beside youthful medical officers who have sat under them in the classroom at home. Dr. Crile, of Cleveland, Dr. Cushing of Harvard, Dr. Brewer of New York, Dr. Harte of Philadelphia, Dr. Murphy of St. Louis and Dr. Beesley of Chicago—they call them majors over here—have been or at present working night and day in casualty clearing stations which have been caring for the wounded from the last great offensive.

These surgical teams have had one characteristic experience. Their work is hampered and their lives are endangered by German airmen who persist in hurling high explosives down among them. In one of the latest raids the German aviators killed or re-wounded many of their own men who were prisoners being cared for in one of these hospitals.

All the American doctors and nurses appear to be enjoying their work thoroughly and they are keeping remarkably fit.
